MUNICIPAL REGULATIONS.

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY,
City Clerk.

SECTION 1. That the lighting precinct of the City of Concord as heretofore existing be extended to embrace all the territory, together with the inhabitants, within the following described limits, to wit: "Beginning at a point on the top of Black Hill so called on the Pembroke Road at the location of the last electric light pole now located on said road, and extending along said road easterly and southerly to the line between the City of Concord and the town of Pembroke at the end of the Soucook River Bridge, so called."

SECT. 2. This ordinance shall take effect upon its passage.

Passed April 10, 1922.

DUTIES OF PEDESTRIANS.

Pedestrians will aid traffic by avoiding careless walking and by observing the following directions:

Keep to the right on sidewalks and on crossings.

Do not stand in the middle of sidewalks, but on one side, preferably at the curb.

Do not obstruct crossings.

Do not "cut" corners.

Cross roadways at a right angle (never diagonally) and at crossings.

Observe traffic before leaving the sidewalk.

On alighting from a street car or other vehicle observe traffic before moving.

"Safety First!"

AN ORDINANCE IN AMENDMENT TO THE ORDINANCE RELATING TO THE
REGULATION OF STREET TRAFFIC.

Amend the ordinance "Relating to the Regulation of Street Traffic" by striking out the whole of said ordinance and inserting the following:
Be it ordained by the Board of Aldermen of the City of Concord, as follows:

ARTICLE I.

DEFINITIONS.

SECTION 1. The word "vehicle" herein shall include horses hitched to vehicles, horses ridden or led, motor vehicles of all kinds, bicycles, and everything on wheels or runners excepting street cars and light carriages for the conveyance of children.

SECT. 2. The word "horse" herein shall include all domestic animals.

SECT. 3. The word "driver" herein shall include the rider, driver or leader of a horse, the rider of wheels and the operator of a motor vehicle.

SECT. 4. The word "curb" herein shall mean the lateral boundaries of that portion of a street designated for use of vehicles whether marked by curbstone or not so marked.

SECT. 5. The words "intersecting way" herein shall mean any way which joins another at an angle whether or not it crosses the other.

SECT. 6. The word "crossing" herein shall mean a way for pedestrians to go from one side of a street to the other which is marked by a pavement or otherwise; also points bordering the intersection of streets not marked but which are commonly used to go from one side of a street to the other.

SECT. 7. The words "Safety Zone" herein shall include any part of the highway established and marked by the Police Department as such, from travel of which vehicles may be restricted or excluded.

ARTICLE II.

VEHICLES IN MOTION.

SECTION 1. A vehicle, except when passing a vehicle ahead, shall keep to the right and as near the right curb as possible.

SECT. 2. Vehicles meeting shall pass each other to the right.

SECT. 3. A vehicle overtaking another vehicle shall, in passing, keep to the left, but it shall not leave the line on the right unless there is a clear way to advance on the left.

SECT. 4. A vehicle turning to the right into another street shall turn the corner as near to the curb as possible.

SECT. 5. A vehicle turning to the left into another street shall pass to the right of and beyond the center of the intersection of the street before turning.

SECT. 6. A vehicle crossing from one side of the street to the other shall do so by turning to the left so as to head in the same direction as the traffic on that side of the street.

SECT. 7. Slow moving vehicles shall keep as close as possible to the curb on the right so as to allow faster moving vehicles free passage on the left.

SECT. 8. No driver of a vehicle shall allow the same to come within ten feet of any vehicle in front of him when approaching and passing over a crossing.

SECT. 9. The driver of any vehicle, before turning the corner of any street or turning out or starting from or stopping at the curb line of any street, shall first see that there is sufficient space free from other vehicles so that such turn, stop or start may be made safely, and shall then give a plainly visible or audible signal.

SECT. 10. (Extract from Motor Vehicle Law, Section 13, Chapter 119, Laws of 1921):

“If any person shall operate a motor vehicle on any way at a rate of speed greater than is reasonable and proper, having regard to traffic and the use of the way, and the safety of the public, he shall be punished as provided in Section 15 of the Motor Vehicle Laws.” “It shall be conclusive evidence of a rate of speed greater than is reasonable and proper as aforesaid if a motor vehicle is operated on any way inside the thickly settled or business part of a city or town at a rate of speed exceeding fifteen miles per hour for a distance of one-eighth of a mile, or if a motor vehicle is operated on any way upon approaching an intersecting way, or in traversing a crossing or intersection of ways, or in going round a corner or curve in a street or way where the operator’s view of the road traffic is obstructed, at a rate of speed exceeding ten miles per hour, provided, that the provisions of this section relating to speed shall not apply to motor vehicles of a fire department, motor police patrols, or motor ambulances, when in the emergency service of their respective departments.”

SECT. 11. Every bicycle operated during the period from one-half hour after sunset to one-half hour before sunrise shall display one lighted lamp on the front.

ARTICLE III.

SIGNALS, NOISES, SMOKE AND TRAFFIC SIGNS.

SECTION 1. Every driver of a vehicle shall, in slowing up, stopping, or backing, give a plainly visible or audible signal to show his intention.

SECT. 2. In turning while in motion or in starting to turn from a standstill, a signal shall be given by the driver of the vehicle about to be turned by raising a whip or hand indicating the direction in which the turn is to be made.

SECT. 3. (Extract from Motor Vehicle Law, Section 11, Chapter 119, Laws of 1921):

“Upon approaching any intersecting way or a curve or corner in a way every person operating a motor vehicle shall slow down and give timely

signal with his bell, horn or other device for signalling; provided, that in the thickly settled parts of a city or town no bell, horn or other device for signalling shall be sounded so as to make an unreasonable noise, except in case of fire and police department vehicles; and provided further, that no operator or chauffeur of any motor vehicle shall on any way permit any unreasonable amount of smoke to escape from said motor vehicle, nor shall any operator or chauffeur on any way permit said motor vehicle to make unnecessary noise, by cutting out the muffler, or otherwise."

SECT. 4. The Police Department shall control all traffic in the streets or highways. Police officers may divert vehicular or pedestrian traffic when necessary to avoid congestion or to promote safety and convenience; and no person having charge of a vehicle shall refuse or neglect to stop or start or place the same as directed by a police officer.

SECT. 5. No person shall break, deface or move any official sign, post or signalling device placed in a highway for direction of traffic.

ARTICLE IV.

STOPPING, STANDING AND TURNING.

SECTION 1. No vehicle shall stop so as to interfere with or prevent the passage of pedestrians at crossings.

SECT. 2. Whenever the driver of any motor vehicle intends to leave his seat or stops more than five minutes on the east side of Main Street, between Freight Street and a point opposite the south side of Center Street, and on the west side of Main Street, between Center Street and a point opposite the south side of Depot Street, he shall back such vehicle until it shall stand with its right rear wheel as nearly as possible to the curb and shall stand at an angle of forty-five degrees (45°) to the curb, and on the west side of Main Street from a point opposite the south side of Depot Street to a point opposite the north side of Freight Street he shall place such vehicle with its right to the curb.

In Ward One (Penacook) on the west side of Main Street from the north side of Washington Street to the south end of the bridge, he shall back such vehicle until it shall stand with the right rear wheel as nearly as possible to the curb and shall stand at an angle of forty-five degrees (45°) to the curb. On the east side of Main Street from the north side of Merrimack Street to the south side of Electric Court, he shall head such vehicle to the curb until it shall stand with its right forward wheel as nearly as possible to the curb and shall stand at an angle of forty-five degrees (45°) to the curb.

SECT. 3. No vehicle shall stop with its left side to the curb on Main Street between Freight and Center Streets, or on Pleasant, Warren, School, Capitol, Park and Center Streets between Main and State Streets, or on Depot Street.

SECT. 4. No vehicle shall stop more than fifteen minutes at a time

on Warren Street between Green and Main Streets, and then only for the purpose of taking on or setting down passengers, loading or unloading merchandise, and in no case shall a horse be hitched or tied or a horse or vehicle backed up to the curb to load or unload merchandise.

SECT. 5. No vehicle shall stand within the intersection of any street, nor within five feet of a fire hydrant, nor within ten feet of a curb street corner, nor within twelve feet of a city standpipe.

SECT. 6. No vehicle shall stop or stand within fifty feet either side of the center point of the front wall of a fire station, theater or moving picture house, except to let off or take on passengers or to receive or deliver goods or merchandise.

SECT. 7. Except as provided in Section 9, unless in an emergency, or to allow another vehicle to cross its path, no vehicle shall stop in any public street except close to the curb line.

SECT. 8. When a horse-drawn vehicle is backed up to the curb, the horse or horses shall be turned so as to stand as near parallel with the sidewalk as possible and headed in the general direction of traffic for the side of the street on which the vehicle is standing.

SECT. 9. In approaching or passing a street railway car which has been stopped to take on or let off passengers the driver of every vehicle shall bring said vehicle to a full stop.

SECT. 10. No vehicle incapable of being turned without backing shall be turned about in any of the following streets: Pleasant, Warren, School, Capitol, Park between Main and State Streets, nor on Depot Street.

SECT. 11. No horse or vehicle shall be driven, backed, or allowed to stand on any sidewalk.

SECT. 12. No vehicle licensed to carry passengers under Chapter XXXIV of the city ordinances, shall park on Main Street, nor on Pleasant, Warren, School and Capitol Streets between Main and State Streets longer than to discharge or take on passengers unless in actual service.

Pleasant Street beginning ten feet east from the east line of Main Street and the south side of Park Street as far west as the prolongation of the east line of the lot of St. Paul's Church are hereby designated as parking places for said vehicles, and reserved for such purpose.

ARTICLE V.

RIGHT OF WAY.

SECTION 1. Police, fire department, United States mail vehicles, ambulances, funeral processions and emergency repair vehicles of public service corporations shall have the right of way in any street and through any procession.

SECT. 2. A person driving or controlling a vehicle waiting at the curb shall promptly give place to a vehicle about to take on or let off passengers.

SECT. 3. Subject to Section 1 of this article, street cars shall have the right of way between cross streets over all other vehicles; and the driver of any vehicle proceeding on the track in front of a street car shall immediately turn out on a signal by the motorman or conductor of the car.

SECT. 4. The driver of a vehicle, on approach of fire apparatus, shall immediately draw up said vehicle as near as practicable to the right-hand curb and parallel thereto, and bring it to a standstill.

SECT. 5. The driver of a street car shall stop between intersecting streets and keep it stationary upon the approach of fire apparatus.

SECT. 6. No vehicle or street car shall so occupy any street as to interfere with or interrupt the passage of other vehicles or street cars.

ARTICLE VI.

CARE IN DRIVING; CONDITION AND TREATMENT OF HORSES.

SECTION 1. No person shall drive or conduct any vehicle in such condition or so loaded as to be likely to cause delay in traffic, or accident or injury to man, beast or property.

SECT. 2. No person shall carry or cause to be carried on in any public street the weight of which exceeds six tons, unless such load consist of an article which cannot be divided, and then only in accordance with a permit from the Police Department.

SECT. 3. No person shall drive a horse not in every respect fit for use and capable for the work on which it is employed and free from lameness and sores and vices or disease likely to cause delay in traffic or accident or injury to persons or property.

SECT. 4. No person shall illtreat, overload, overdrive or cruelly or unnecessarily beat any horse.

SECT. 5. Any police officer, in his discretion, may remove any horse or vehicle left upon any street not in apparent charge of a driver or other person, or which is in violation of any of these regulations, to another place on said street, or from street to another street, or to the city yard, or to a garage or stable, and there leave the same.

ARTICLE VII.

STREET CARS.

SECTION 1. No street car shall stand in the intersection of streets.

SECT. 2. Drivers of street cars shall not pass the intersection of State and Pleasant, Warren and Liberty, Warren and Merrimack, School and Merrimack, State and Center, and State and Franklin Streets without audible warning, nor at a speed which would prevent such driver from bringing his car to a full stop in emergency, before reaching the center line of intersection of said street.

ARTICLE VIII.

STEALING RIDES.

SECTION 1. No person shall steal a ride upon any vehicle or street car, and no person shall ride upon the rear of any vehicle without the consent of the person in charge thereof.

ARTICLE IX.

RESTRICTED ZONES.

SECTION 1. Subject to the approval of the Board of Mayor and Aldermen, the Police Department may establish "Restricted Zones," "Safety Zones," or "zones for the exclusive use of horse-drawn vehicles," or other purposes and all vehicles shall be restricted or excluded from any part of a street established and marked by the Police Department as such.

ARTICLE X.

PENALTIES FOR VIOLATION.

SECTION 1. Except as otherwise provided in the Motor Vehicle Law of the state, any person violating any of the provisions herein contained shall be liable to a penalty not to exceed ten dollars for the first offence, or not to exceed twenty dollars for any subsequent offence.

SECT. 2. Complaints against any person violating any of the provisions herein contained may be made at police headquarters or to any police officer.

SECT. 3. Copies of this ordinance may be obtained at police headquarters.

SECT. 4. The city clerk shall publish the provisions of this ordinance in accordance with the requirements of Section 14, Chapter 119, Laws of 1921.

ARTICLE XI.

RESOLUTION PETITIONING THE 1923 LEGISLATURE FOR CERTAIN RELIEF.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the mayor and Board of Aldermen of the City of Concord petition the 1923 Legislature of the State of New Hampshire for relief from the financial burden placed upon the city during 1922, when by the provision of present existing state laws, the city paid for the maintenance of troops at the Boston & Maine shop yards the sum of \$36,000.

Because of the fact that Concord is a terminal yard and thus becomes a service station for the entire state and railroad system, we feel that maintenance of law and order along the railroad system and the protection of railroad property is as much a state problem as it is a city problem.

The Finance Committee of this Board, therefore, is requested to have drawn a proper bill petitioning the Legislature for financial relief to the extent of one half of the amount paid out by the city for the maintenance of troops.

The Finance Committee is also requested to take the bill up with the Concord Delegation in the Legislature, with the request that they give it their support and urge its passage.

Passed December 29, 1922.

REPORT OF THE BOARD OF EDUCATION.

One year ago our report recommended that the district vote the money necessary to erect two new structures, one a new school building at Millville in place of the old building now in use, and the other an addition to the Morrill Training School. The amount voted at the annual school meeting for the Millville School was a sum not to exceed \$30,000. Upon organization of the School Board at its meeting next after the annual meeting, the following members of the Board were appointed the special committee on the Millville School, viz., Messrs. Otis, Batchelder, Emery, Dr. Duncan and Mrs. Jackson, and upon the committee for the addition to the Morrill Training School were appointed Dr. Duncan, Mr. Foster and Mrs. Elkins.

Immediately plans were asked for by the Millville School Committee from all architects interested in the matter, and a large number of meritorious plans were submitted, from which the Board finally selected that of C. R. Whitcher, of Manchester. In like manner, various contractors submitted bids for the work of construction, the general contract finally being let to Hutchinson Building Company, of Concord, for the sum of \$26,597, they being the lowest bidder for the work by some \$15,000. This firm has done all that could reasonably be expected to complete the building at an early day, and it will be ready for occupancy at the beginning of the new school year. We feel sure that it will be adequate for the needs of the Millville District for a long time, and will, when completed, be a source of genuine pride to the whole district and the City of Concord.

The district should know that the land on which this building is being placed has been donated for school purposes by St. Paul's School.

The addition to the Morrill Training School has been built according to plans drawn by Mr. George S. Forrest, H. K. Larsen being the general contractor, and is now occupied as the new quarters for the machine department. The total expense for building and equipment will be about \$11,000. The greater conveniences and space gained by this addition well justify, we believe, the cost of the structure. In this connection, we would add that the space at the west of the Morrill Training School building, where the Board had hoped to have the addition and where certain excavations were made before the special district meeting which acted adversely on the matter, has become utilized for a convenient and serviceable storage room much needed by the district. Lumber to be used in the school can advantageously be stored there, or certain other materials of the district, for which it is now difficult to find a proper place. This is a valuable addition to the equipment of the district.

An unusual opportunity to meet the reasonable and growing demands of the South End residents for a kindergarten in that vicinity presents itself in acquiring for school purposes the small Baptist Chapel on the east side of Dunklee Street, a structure unusually well built and easily possible of being made suitable for our purposes. We have an option on the property from John A. Cate, the owner, for \$1,500. We hope the district will authorize its purchase at the coming annual meeting.

On the matter of our physical equipment, we should add that as a part of the activities of Fire Prevention Week, the Underwriters' Association of New Hampshire, upon our application and through the kindness of Mr. Louis Clarner, Jr., made without expense to the district a detailed and thorough inspection of all our school buildings for the purpose of suggesting and recommending any matters that would further insure the safety of the buildings and the occupants. We were grateful for a number of recommendations, and substantially all have been complied with or will be at an early date. Our genuine appreciation is due Mr. Clarner for his services in this matter.

More repairs and refurnishing of the school buildings will have to be done this coming year than has been the case for some time past, especially at the Walker and High School buildings. Mr. George W. Griffin has been engaged to make a thorough inspection of all our school buildings and will soon submit to your Board a statement of the needs of the district in this respect, and the probable cost of doing the necessary things. On his report will be based the amount of the appropriations to be asked for at the annual meeting under the proper article inserted for that purpose in the warrant.

The most serious financial matter which confronts the district is the necessity for a new high school building. The Parker School is overcrowded by about fifty pupils, and the high school building, already filled to capacity, will be overcrowded next September by about one hundred, in consequence of which double sessions per day will have to be inaugurated, an arrangement which is recognized everywhere as being inefficient. To avoid too great loss from this cause, we should have the new building as soon as possible. In this connection we should take a long look ahead, and build adequately, not for fifteen, but for fifty years. We should make ultimate provisions easily possible for twice our present needs,—the experience of the past permits no other course.

Cities around us are having to spend large sums of money for school purposes,—Manchester, \$2,500,000; Laconia, \$350,000; Berlin, \$500,000; Greenfield, Mass., of 18,000 inhabitants, \$400,000 for a new high school building. We doubt not the citizens of the district are well aware of the necessity for a new high school, but there are several very important questions connected with the matter, and not altogether easy of solution,—how much the building shall cost, where it shall be located, whether on a lot large enough for an athletic field, whether this building may solve, as in some places, the problem of a suitable public auditorium, are some, but not all, the questions for careful consideration. We believe the appropriations should be made not later than

the district annual meeting of 1924, and that detailed information on all the above matters and all others necessarily involved should at an early date be submitted to the voters of the district. The work required will be great,—the matter, itself, is very important. The Board should have assistance, and we believe the citizens of the district, whose matter it really is, will gladly co-operate. We therefore now intend at the coming annual meeting to request that the district appoint a committee to assist the Board, or a committee of the Board, to make a thorough investigation of the housing conditions of the district as they relate to the schools, and make a report thereon not later than November 1, 1923, in order that all citizens may be informed on the subject before the annual meeting of 1924. We believe that such a survey and investigation should include the question of the advisability of an intelligent building program in reference to new buildings for the lower grades in some sections of the city, particularly the south end, if not for the immediate future, then certainly not too long delayed.

The work in the schools this year has been unusually satisfactory. No great amount of sickness among either teachers or pupils, no unusual interruptions of any kind have interfered with the school work. We are impressed anew with the loyalty of our teachers, as a class, to our schools, and by the almost prodigal expenditure of effort they make, inspired in most cases by a motive beyond the money return to make our schools the best possible.

Of special activities in the schools, we can report that the work of Dr. Kelley and the school nurse, Mrs. Upham, has in our judgment justified the district in voting for medical inspection, as it did, some three years ago. The dental clinic carried on weekly at the Walker School is of the greatest importance in treating a vast number of cases among the children which otherwise probably would go without treatment, to the great physical injury of such children.

In the death of Louis C. Merrill the district has suffered a genuine loss. He was moderator at the time of his death,

as he had been for many consecutive years. In his passing away, the schools have lost a loyal friend and the city a high-minded citizen.

The financial report is given otherwise. We would add that the books are open to any interested voter.

We desire at this time to express our appreciation of the increased interest in our schools taken by the parents of the district, and for the helpful criticism, suggestions and advice given by so many of them to individual members of the Board and in other ways. We hope such interest will increase and not diminish.

REPORT OF THE SUPERINTENDENT.

To the Board of Education of Union School District, Supervisory Union No. 8, Concord, N. H.

This report, my thirty-seventh in succession, and the sixty-third of its series, invites your careful reading.

The national field of public education grows in importance each year. This is true of education not only as a source of democratic strength, not only as an opportunity to be enjoyed by all, but as an economic factor in promoting a wholesome national life.

Even in the face of keen criticism the cause of education still keeps its onward march stronger, because it is considering the present and future needs of the people who maintain it.

One of the most notable advances made in recent years is the active work done in the measurement of pupil-intelligence, the importance of which becomes increasingly apparent. This is made evident by such things as the establishment of mental clinic schools for backward children, and the maintenance of a Bureau of Mental Hygiene and Diagnosis by the Department of Education for the state of New York.

We also note thought along the following lines: Better civic training, more comfortable homes for teachers, building programs for school buildings under the direction of the most skilled architects, the rapid growth of the junior high school idea, a national scheme for more effective teaching of the English language in public schools, and an international agitation for educational co-operation. In addition to these things and many others the cost of public education is being thoughtfully considered, as it should be, before public expenditures assume bankrupt proportions.

Some of the less conspicuous ways that make for the increase of school expenditures are: The unduly long term of

public education, badly proportioned curricula of studies, the prevalent idea that education is something that can be acquired simply by "passing through" a course of study, the admission and retention of many pupils in high schools and colleges who are ill-fitted for the higher education.

Such expressions as these appear frequently in the public press: "There is a prodigal waste of time in college." "Fifty per cent of the work done in colleges of arts and sciences rightfully belongs in the secondary schools." "Secondary education begins too late and ends too early; it is therefore too diffuse and superficial." (Dr. Samuel B. Capen, director of the American Council of Education.)

"There is a widespread notion that formal education is not only the one way to advancement, but that it is also the panacea for all social and political disorders." "The admission of great numbers of pupils, ill-fitted for the higher education and the more expensive schools, such as high schools and colleges * * * ." (Dr. Henry S. Pritchett, Carnegie Foundation.)

"Public education is faulty in that it wastes from five to ten years spent in the schoolroom. The time is coming when boys and girls will go through from kindergarten to high school and be ready for service at fifteen years of age." (Norbert J. Baumer, a business man.)

"No nation can continue to offer sixteen years of preparatory education to its students of this superficial sort, and meet its needs in educational training. If the work of educational training were rightly done, no such time ought to be required and no nation can afford to turn its trained men into their profession so late in life as we are coming to do. Without question *four years* can be dropped out of this program with advantage to the cause of education and to the interest of the people and their children." (Dr. Henry S. Pritchett, President of the Carnegie Foundation for Advancement of Teaching.)

These quotations are taken from public writings of distinguished men of brains. One the chancellor of a great university, one the president of a branch of a noted Founda-

tion, and the other a keen, practical, business man. They are not idle words. They mean something. They are alarming, but they reveal huge leaks in the dike of educational expense.

Every child retarded a year in his school work means doubling the cost of his schooling for that year. Every child held in school by law against his best interests by simply compelling him to exist in school until the law becomes inoperative, is a public expense that ought not to be borne. Every child who stays in school or is kept in school by his parents because they think it is "the thing to do," not having seriously consulted the child's best interests, is a financial burden on the public.

We have such children in our schools and they appear to be as numerous in other cities. It is well for us all to think carefully and take accurate measure in determining the value that the public is getting for the money expended in attempting to educate youth hampered by such conditions. They compel new school buildings. They increase the burden of taxation by clogging the progress of the interested pupils and they hold back the advancement of efficient teaching as well as the progress of society.

All such things are civic problems worthy of the best thought of all people and economically important for the interests of any community.

ATTENDANCE.

The enrollment of pupils in the public schools has varied little in the last ten years, the average net increase being about fifteen pupils per year. From 1921 to 1922 the gain was 155. Ordinarily, this would mean four extra rooms but, the pupils being distributed over the entire district, we have been able to house them without extra provision. Additional enrollment in the southern part of the city will make more room necessary.

The increase of pupils in the High School is all out of proportion to the gain in the general enrollment of the schools.

The transportation of pupils has been done economically and with as little friction as can be expected. One route at Riverhill was discontinued. The rates of transportation conform to the standards set by the state.

The continued cold of a long, hard, winter made it difficult to continue school but this has been done with the loss of only one-half day in the city proper, and two days at the Mountain. The supply of coal was so uncertain that it was deemed wise to lengthen the vacation in February by one week. With the consumption of soft coal in the place of anthracite, we have been able to keep the schools open.

A NEW HIGH SCHOOL BUILDING NEEDED.

In my last report the matter of building a new high school was suggested but not elaborated. In view of the growing pupil enrollment, and its inevitable increase next year, more room is needed at once.

The following statistics show that the demand is justified:

Per cent of gain in pupil enrollment for the last ten years:

Senior High School	71.2+%
Parker Junior High School	27.9+%
Chandler Junior High School	57.5+%

		<i>Present</i>	<i>Forecasted</i>
	<i>Built for</i>	<i>enrollment.</i>	<i>for 1924.</i>
Senior High School . . .	500 pupils	549 pupils	630 pupils
Parker Junior High School	180 "	238 "	250 "
Chandler Junior High School	120 "	156 "	160 "

The Chandler building never was intended for junior high school accommodations and it furnishes none of the conveniences that such a school needs. There is no assembly hall, no room that can be devoted exclusively to the study period, no gymnasium, no science laboratory, no suitable conditions for demonstrating the practical things of life. All these and others are necessary if the schools of Concord are to maintain their high rating.

The Parker School is badly overcrowded. No longer can the pupils assemble in the study hall without much inconvenience. Two rooms are now used for permanent seating representing the excess that cannot be accommodated in the assembly hall. One room in the basement is fitted up with radiant-fire heaters, and window-boards for ventilators. It is located so near the closets that it has to be screened off. The air is correspondingly vitiated and pupils ought not to be compelled to sit in it.

The Senior High School now has forty-nine pupils more than the number for which it was built. Next fall the overflow will reach one hundred or more and probably force the two-session plan, one half of the pupils coming in the forenoon and the remaining half in the afternoon. Such a scheme is undesirable never having given full satisfaction wherever tried.

The lecture room has been fitted up with desks, and the physical and chemical laboratories have to be used for recitation rooms. In addition, the art room, cooking room, and assembly hall are used for regular periods. All these things interfere with the carrying out of general school activities.

The real solution of the entire situation lies in the erection of a new building upon a lot spacious enough to realize all the demands of the modern high school. The occupation of such a building would release the present high school building for the junior high schools so that they could be brought up to standard, ranking with the best in the country. This would open the Parker School for classes K and L and still give room for the enlargement of the administration offices.

Such an arrangement would release two rooms in the Kimball building, two in the Rumford building, and four in the Chandler building for the use of the elementary grades, thus taking care of any increase that would appear for many years.

The Concord school system is one of the efficient ones in the country. It is not being given the building accommodations that it needs and deserves.

KINDERGARTENS.

No new kindergartens have been established. The enrollment has gained and the general work has been good. There is need of a new kindergarten in the southern part of the city. It should be established as soon as a suitable lot can be secured. The Rumford kindergarten has been changed from the second floor to the first floor to insure the safety of the children in case of fire.

THE ELEMENTARY SCHOOLS.

The elementary schools have shown themselves to be particularly strong in grammar, history, spelling and arithmetic. The courses are workable and effective.

The Human Geography adopted by the Board of Education is now in use in all the classes except Class L, which will begin it next fall. These books, in favor with pupils, parents and teachers, are working out to advantage. The mid-winter tests in spelling, history, language and hygiene were unusually successful. Recent cases of pupils taking their tests for admission to schools in other places prove the excellence of our work.

THE HIGH SCHOOLS.

Junior High.

The work of these schools is of high calibre. The results of tests recently given and surveys made prove this conclusively, which is all the more remarkable in view of the poor housing conditions that they are obliged to endure.

The results in arithmetic, grammar, spelling, history and elementary science show the pupils to be well prepared to meet the requirements of high school work. This can be proved by actual facts, figures, and written testimony from various sources, high school and otherwise, now on file. The work invites your close investigation. It was quite reassuring to have such an authority as Professor Childs of Dartmouth College remark in his last report upon the annual prize-essay contest that:

“I have been greatly pleased with the excellence of the results, and have only complimentary words for the work your English teachers are doing. If you chance to have in your city any *carping critic*, let him read this group of 107 essays produced by your pupils—and thereafter hold his peace!”

Similar commendations on other lines of work are at hand. This is true of the even, excellent work done in the Parker, Chandler, Walker, and Garrison Schools.

Senior High.

Strict attention to the better discipline and scholastic standing of this school has begun to bring results. The crowded condition of the building, spoken of elsewhere, really complicates matters so that the best work cannot be accomplished.

Improvement has been noticeable in the following particulars: Better general discipline, more serious attention to school work, reduction of tardy marks, and a somewhat more wholesome school spirit. The school has been fortunate in having outside speakers address the students: Rev. Mr. Dallas of Hanover, N. H.; Miss Wooster, Franklin Square House, Boston, Mass.; Mrs. Lucia Ames Mead; Rev. Dr. King; Col. J. T. Geary; Rev. R. W. Barstow; Dr. H. H. Amsden; Mrs. LaMance, National W. C. T. U.; Maj. Robert C. Murchie; Rev. H. H. Niles. Talks to the commercial classes have been given by Miss Whitaker of the Margaret Pillsbury Hospital and Mr. Carl Holmgren.

Among the more important activities are the renewal of interest in the Lyceum, variations in conducting the morning opening exercises, the institution of a traffic squad, and signs of renewed school activities in general.

College preparation is not now considered the prime function of any modern mixed high school, but to show that our Senior High School is not lacking in this respect, I submit the following:

Last June five students took the College Board examinations in twenty-one different subjects. Passing averages

were secured in nineteen. All, who were recommended by the teaching staff to take the examinations, passed.

One took the comprehensive examinations required by Mt. Holyoke—passed.

One took the comprehensive examinations required by Smith—passed.

One took the examinations for Middlebury College—passed.

The annual ranking of this school last June by the State Department of Education showed it to be ahead of the other large cities of the state. Of the cities, Somersworth was the only one ranking ahead of it. It may be worth while to note that Concord was represented by a larger number of pupils, which might account for the lower ranking.

The records of the school show that twenty-six of its graduates entered college in September, nine entered normal schools, and one a special school for optometry. Complete records of the work of the first semester are not yet in, but so far as they have been received they are commendable.

The reports received from graduates of the Commercial Course are creditable and in many cases flattering.

THE RURAL SCHOOLS.

Rural schools are necessarily complex in the matter of class regulation, which has been made more difficult this year by larger pupil enrollment. Nevertheless, despite the fact that the attendance has been irregular during the remarkably severe winter, results accomplished are reassuring. The discipline has been good and pupil interest keen.

These schools are in need of more extensive school libraries, victrolas, stereopticons and other illustrative apparatus to aid in class work. But little time has been lost on account of no school resulting from the impossibilities of travel in the severe winter months. On such days the teachers use their time visiting schools in the city proper.

The matter of securing boarding-places for the teachers has reached an acute stage. The teachers at the Mountain

and the Riverhill Schools have been obliged to room in the city proper, going to and from their work at great inconvenience, because no accommodations could be found within reasonable distance from the schools. If this situation is not improved then teachers cannot be found to make such sacrifices of inconvenience and possible injury to health, the result being that the pupils will have to be transported to the nearest city school, and the two buildings closed.

THE DEWEY TRAINING SCHOOL.

The entering class of this year was small, probably owing to the withdrawal of the daily wage adopted during the late war but discontinued this year. The record of the graduates still continues favorable. I believe some scheme should be adopted for determining whether it is wise for some of the candidates to continue training if they give evidence of being better fitted for some other work than the professional life of the teacher. It is also advisable that graduates be required to pass the state examinations before being eligible for positions in the schools of the district. The previous success of the instruction is being maintained.

DRAWING.

The increased amount of work called for an assistant teacher. Miss Ruth Battilana has filled the position since the beginning of the year. Her work has been energetic and shows signs of eventually becoming successful.

There being no accommodations furnished in the Parker School, pupils from the classes O and P are compelled to go to the studio in the high school building to pursue this work. Some are compelled to stay until four o'clock in the afternoon, and the arrangement is unsatisfactory. No relief can be had until ample room accommodations are furnished. The usual routine work of the course has been accomplished, but the best results in the High School cannot be had in its present crowded condition.

General exhibitions of work were shown on Parents' Nights and at the close of the spring term.

SEWING.

The usual courses having been followed, I am simply stating the new features:

Class L—Instruction in the use of sewing-machines.

Class M—The making of simple cotton dresses.

Garment Making—Brown velour wrap with collar, hand-embroidered serge dresses, semi-formal silk dress, spring suits.

Dewey Training classes—Taking up of the more advanced problems of garment instruction.

Exhibitions were held on Parents' Days and at the various schools. The department needs a room in the Senior High School to serve the best interests of those electing this branch.

The results in sewing are creditable to both teachers and pupils.

COOKING.

Cooking remains about the same as for a number of years past.

In February, classes M and N began alternating their work with sewing, which seems better than the former plan, although it were still better if both sewing and cooking could be taken each week throughout the year.

The girls at the Parker School get only one lesson in cooking every four weeks. This is in connection with the school lunches. The time of the beginners' classes is divided between instruction, recitation and kitchen work.

Extra work has been done in the serving of lunches on "School Night" and at the meeting of the State English Teachers' Club.

Lunches have been improved by introducing meat dishes more frequently, also various kinds of stews and chowders, and they are popular with the students. The sale of tickets has been increased by advertising the menus a day ahead of time.

MUSIC.

The work of this department has been kept up as well as time, material, and close application to work would permit. It has been marked by individual sight singing in classes E to L, four-part chorus singing in classes M, N, O, P, and better chorus singing in the High School. The glee clubs and orchestra are larger than for many years. The music appreciation classes also have a large membership and show good results. The system now used should be revised and brought up-to-date.

THE MORRILL SCHOOL OF MECHANIC ARTS.

This school, one of the most noted of its size in the country, is ever on the progressive side and with a live corps of teachers it is accomplishing real results. The discipline has been strong even under the adverse conditions prevailing throughout the year. The project work, more comprehensive than ever before, has shown splendid results, while the work of each particular department has borne up wonderfully well during the period of building reconstruction.

A partial enumeration of the projects that have been done:

1. Reinstalling the equipment in the cabinet room.
2. Rearrangement of woodworking machinery in rooms 2 and 3.
3. Excavating and building cement forms for the west side addition.
4. Installing clutch on forge shop.
5. Assembling and finishing 60 tablet-chairs.
6. Building and installing toboggan slides and ski take-off at Eddy Field for the Chamber of Commerce.
7. Installing and operating school printing plant on "School Night."
8. Wiring, installing equipment, and general fitting up of new electrical room.
9. Wiring, planning layout, and installing equipment for new machine shop.
10. Rearranging print shop, painting walls and ceilings.

Suggestions for Next Year.

1. Rearrangement of time for classes O to V inclusive.
2. Direct drive surface planer.
3. An iron planer.
4. An automatic filing and setting-machine for rooms 2 and 3.
5. Rearrangement of rooms for the better accommodation of the printing department.
6. A blind drain under the floor on the west side.
7. That the roof of the new machine shop be tinned.
8. New sinks for rooms 2 and 4.

RECOMMENDATIONS.

That a new high school building having a seating capacity for a large number of pupils be erected upon a lot big enough to carry out properly all forms of athletic contests.

That my recommendation of last year for an advanced high school grade be considered carefully and given a trial.

That an additional kindergarten be established in the southern part of the city.

That provision be made for the employment of two college graduates for teacher training and availability in general substitution.

That an instructor be employed for the entire year to have charge of all forms of athletics and to assist in general physical training.

That high school graduation be restored to its former standing as an annual event in June.

That "School Night" be continued annually.

That a complete course in Domestic Arts be instituted and that the working out of such a course, including cooking, sewing and the administration of school lunches, be placed in charge of one competent head who shall be held responsible for its success.

That a special sum of money be appropriated each year for the general upkeep of the school plant.

That at least one of the superintendents be sent to the National Meeting of Superintendents each year.

That passing the state examinations be made a requirement for a graduate of the Dewey Training School to secure positions in the schools of this district.

That another system of penmanship replace the one now in use.

ACCOMPLISHED.

The introduction of the Human Geography into classes E to L inclusive.

Rearrangement of the course in history for the elementary grades.

New course in memorization for all grades (Mr. Clayton).

Rearrangement of the courses in physical drill for classes A, B, C, D (Dr. Kelley).

A new spelling book for classes M, N, L, K.

Change in the literature course, classes M, N (Mr. Clayton).

Survey of arithmetic, classes I, J, in one school. Results found to be above the median for the standard tests. (Mr. Clayton).

Introduction of milk and cracker lunches in many schools (Dr. Kelley).

The printing and the publication of "School News."

Transfer of the Eastman School junior high classes to the schools of the city proper.

New dictionaries for classes E to N inclusive.

Instructions regarding the prevention of fire, submitted by the Board of Fire Underwriters, carried out.

A new lumber room, and a new addition to the Morrill School on the east side for the machine shop.

Rearrangement of work in arithmetic in classes G, H, L, M, N.

THE POINT SYSTEM.

One of the harmful things found connected with the modern high school is the so-called "Point System," adopted by the secondary schools from colleges where it had

its birth in the convenience of professors. It has become so firmly rooted in public systems of education that students are obsessed with the idea of winning points enough to "get by."

Not long ago a valedictorian in her essay at graduation stated, without a trace of shame, that pupils entered secondary schools with ambition to keep up and retain their former standing, but gradually became one of those who cared more for pleasure and were content simply to get a passing mark which, of course, means "points enough to get by." This reveals a condition in schools that is deplorable to say the least. It may account for the student attitude toward study and even the prevalent lack of an English style in writing.

The deterioration of modern teaching into a dry drive-method may be directly traced to this way of valuing pupil attainment, the goal being not to get out of a subject the real meat, but to so fix certain things that the pupil may get enough points to be able to pass on to higher work.

Masters, principals, and teachers are not to blame. Their complaints have been heard for a long time. The effect upon the true value of a subject is disastrous. In literature the beauty of the selection is blurred by the distraction of marks. Mathematics, a dry subject, loses whatever vitality it has, and the languages are robbed of their peculiar literary value and poetic sentiment.

I have seen teacher and pupil scheme for a long time to arrange studies so as to make the required number of points the inherent value of any one of the subjects never even being touched upon. This one is substituted for that because it is surer of its points.

How long educators and intelligent citizens will withhold revolt at such practices is a matter of conjecture, but I am glad to register my emphatic disapproval.

The pupil of today needs to be brought to a realizing sense that schools are being maintained to educate him, to make him do exacting, intelligent, profitable work, not to protect him and urge him on in efforts to camouflage with an array

of points. When he is taught to go to his task as a joy and with a wholesome purpose, when he knows his work will be judged by his actual knowledge of the subject as revealed in the classroom, when he has been required to meet and conquer a difficult subject for the good that he can get out of it rather than "point" valuation, then we may tell the public that education is taking on a new lease of life, that teachers are progressing in professional standing and that society is being elevated to more wholesome levels through public schools purged of the baneful influence of "The Point System."

In closing this report I wish to subscribe to the valuable work of all the teachers and other employees of the district and to their commendable spirit and attention to duty, to Assistant Superintendent Clayton; and to the Board of Education for its efforts in making the schools a credit to the city.

Respectfully submitted,

L. J. RUNDLETT,
Superintendent.

REPORT OF THE ASSISTANT SUPER- INTENDENT.

To Mr. Louis J. Rundlett, Superintendent of Schools,

DEAR SIR: I am presenting herewith a report on the work of assistant superintendent for the year 1922-23. This report will deal briefly with night schools for adults, supervision in the elementary and secondary schools, and certain recommendations.

In view of the alterations that are being made at the Morrill School, it was considered inexpedient to open evening vocational courses for adults as had been done previously for several years. The evening school activities for adults have been limited to two classes in English for the foreign-born. These classes have been taught by Mrs. Putnam and Miss Clark. At the beginning of the term, Mrs. Gauthier substituted for Mrs. Putnam who, on account of illness, was unable to commence work. The statistics bearing upon the work of these two teachers appear elsewhere in this report and are complete up to the first of March of the current year.

Following out the desires and with the co-operation of the Board of Education, I have endeavored to keep the public informed with respect to the regular and special activities in the schools. In this attempt to keep the public informed, I found very ready co-operation on the part of many local agencies and interested individuals. We were fortunate in having as our guest during the early part of November the United States Commissioner of Education, the Honorable John J. Tigert, and by careful planning prepared a special school night at the Auditorium. The success of this meeting was secured by the untiring support of principals, teachers, and pupils. In developing a more

intimate contact between the schools of the District and the public, the local newspapers, the *Monitor* and the *Patriot*, have been most generous in the amount of space they have placed at our service. In calling attention to the schools during American Education Week by means of slides, and at other times also, the local moving picture theaters have gladly co-operated. The Chamber of Commerce has done much to stimulate a wholesome interest in the schools. Under its auspices prizes for essays were offered during Fire Prevention Week, and the schools generously accepted the challenge. Local organizations have responded to the Board's invitation to visit schools, and it is to be earnestly hoped that this kind of school visiting will be continued.

During the greater part of last year an extensive questionnaire bearing upon the teaching of English was circulated among all the teachers of Union School District. A vast amount of valuable opinion was secured. During the summer and since then I have tabulated much of this data and from it obtained helpful suggestions in the general reorganization of English teaching throughout the grades. It is our purpose to have available for all teachers a definite body of data bearing upon the teaching of the English language and literature. Teachers in the most elementary grades should be able to see the whole English situation and those in the higher grades should know what has preceded in the English course and how much advancement to expect from their pupils. The segmentation of public school systems into grades has a tendency, unless checked, either to retard or to hasten the natural sequence of growth of pupils from the lowest to the highest grades. There is often much overlapping and unnecessary review. In no part of the program is this more apparent than in the teaching of English. This effort in reorganizing the English work is part of the larger purpose to secure for children a natural development from the kindergarten through the high school, unimpeded by the administratively necessary graded system.

In working out this plan for the reorganization of English I have formed a class in English composition of an advanced grade. The class is conducted primarily for the benefit of seniors in the Dewey Training School and for graduates of the High School who wish advanced work in English. The course is designed to extend through the second semester only. By securing actual contact with pupils I believe I can more effectively work out teaching methods and make available for English teachers a sort of workshop in composition methods. The present class enrolls twenty-three pupils.

The congested conditions in both the Parker and the Senior High schools increasingly impede effective work with classes by the teachers. Conference work with pupils, an important method in modern secondary school procedure—a procedure designed to overcome some of the limitations of mass instruction and to secure greater individual development—is becoming almost impossible for many of the teachers. I see no alternative for next semester but to have two sessions a day in the Senior High School. This will necessitate the curtailing of choral work, gymnasium drill, and extra-curricula musical activities. There is likelihood also in such an arrangement that the Smith-Hughes program in the Morrill School will be affected. The two-session plan is an extra burden upon the teaching staff.

The teaching in the high schools frequently suffers from the fact that in case of illness or resignation of a teacher there are not available properly qualified substitutes. The elementary schools can in most cases call upon the force in training at the Dewey School. The high schools have no such resource. We are compelled to consult agencies in Boston and elsewhere, and for the brief period for which substitutes are needed it is impossible to secure suitable candidates. This situation in our high schools could be more completely provided for if we had one or two apprentice teachers doing part-time service in Parker School, occasionally substituting in the Senior High School, under the direct supervision of the Superintendent. These ap-

prentice teachers would be given sufficient time to observe effective teaching, to acquire an understanding of secondary school methods of teaching, and to pursue the study of problems bearing directly upon modern high school practice. They would be in line for permanent positions in the junior and senior high schools. It is very rarely that college graduates presenting themselves as candidates for teaching positions in our high schools have had any training whatever in the art of teaching. Modern high school teaching is as distinctively a specialized profession as is that of the teacher in the kindergarten or in the elementary grades. The employment of one or two apprentice teachers as here suggested would greatly improve the prospect for better secondary school teaching and meet the need of an occasional substitute.

As at present organized and conducted the work in home economics or domestic arts lacks well-defined objectives and adequate co-ordination. The excellent work that is being done by individual teachers would secure more lasting results for the pupils if the entire work from the grades through the high school could be gradually reorganized into a progressive, unitary course. We have already many elements of an effective home economics course. Broadly conceived, a home economics course should help both girls and boys to regard intelligently the home as a basic factor in their present and future well-being. During the last two years of high school there should be provided a home economics course for girls as efficiently conducted and as adequately equipped as is the vocational work for boys in the present Morrill School. We are not doing our whole duty in providing educational advantages for our children if we stress merely the academic, commercial, and vocational, and slight the home. As rightly administered, a constructive course such as I have suggested, would require a supervisor who would ultimately give her entire time to the supervision of the course.

In closing this report I wish to summarize its items in the form of five recommendations. I would recommend:

1. The continuance of the policy to keep the public fully informed with respect to school activities and progress;
2. The continuance of the reorganization of school subjects with a view towards the better distribution of subject matter;
3. The early provision of adequate housing facilities for the senior and junior high schools;
4. The appointment of two apprentice teachers in the junior high schools;
5. The appointment of a supervisor, and that immediate steps be taken to organize gradually an adequate course in home economics extending from the grades through the high school.

Respectfully submitted,

F. T. CLAYTON,
Assistant Superintendent.

ANNUAL REPORT OF THE MEDICAL DIRECTOR.

Mr. Louis J. Rundlett, Superintendent,

DEAR SIR: In general the work of this department has continued as during the previous year, but with an increased effectiveness, particularly in the activity of the Dental Clinic and in physical training. I am enclosing herewith the reports of the school nurse and the physical instructors.

Medical inspection has included 2,526 routine examinations, starting with pupils in the lowest grades, 57 individual mental examinations, 320 physical examinations for special reasons, and numerous other inspections for symptoms of contagious disease. It may be stated that throughout the district there is a definite decrease in the communicable conditions common among school children, and an appreciable number of pupils have benefited by the correction of conditions to which attention has been called. The forenoon lunches have been extended so that they are available for all the elementary schools within the area of delivery and, during the last semester, 32,504 such lunches were served, attended by a marked increase in the number of children taking lunches from home. Already, in some instances, the teachers have noted an improvement in the well-being and the school work of pupils which may be attributed to the lunches.

A program of physical education has been adapted for the first three grades. This provides for suitable exercises in the classroom and for appropriate training in health habits. More attention should be given to these exercises, with extension of the program into the upper grades.

The physical drills in the High School have been conducted effectively by Mr. Quinn and Miss Ranney, all the more creditably because of the obvious limitations of room and equipment.

Appreciative acknowledgment is again made to the Concord Female Charitable Association for the gift of ten dollars for the benefit of needy children.

Your attention is respectfully called especially to the increased work of the Dental Clinic, due to the enthusiasm of the staff, consisting of Dr. Young, Dr. Albee, Dr. Morton and Dr. Washburn, and of Mrs. Upham. Since February 18, 1922, 375 pupils have been afforded 1,400 dental operations.

Respectfully submitted,
CLARENCE M. KELLEY,
Medical Inspector.

REPORT OF PHYSICAL INSTRUCTOR.

CONCORD, N. H., February 22, 1923.

Mr. L. J. Rundlett, Superintendent,

DEAR SIR: I hereby submit my report as Physical Instructor of Boys in the High School for the year ending February 21, 1923.

The instruction has been along the same lines as last year. The exercises taken up this year, however, have been taken from the latest available manuals issued for the physical instruction of the United States Army, the exercises being selected which seemed most suitable for growing boys. To the exercises which were done to music last year have been added three entirely new sets, for which it was necessary to select and adapt music. This has been done with good success.

In addition to physical exercises I have instructed in the simpler marching movements.

I have endeavored to inculcate the idea of discipline, steadiness in ranks, and promptness of execution. Considering that the drill comes but once a week while school is in session and does not last more than half an hour, I think that good results have been obtained. All of the drills have been held in the State Armory, which is well adapted, of course, for the work, although the fact that the students have to come from the High School takes time and is but one more argument for a suitable high school building.

Considering the handicaps under which the work is carried on, I consider the results obtained very satisfactory.

Respectfully submitted,

JAMES J. QUINN,

Physical Instructor.

REPORT OF PHYSICAL DRILL.

The order of drill this year has been much the same as last year, owing to the fact that we have no apparatus. We have, of course, done some more advanced work this year, —for example, the advanced marching, but the amount was limited due to lack of space.

The general attitude toward the drill has been better this year. We have not had so many absences, and many show the result of last year's training in muscular control and ability to think and act more quickly. If we could only have more *space*, more *time*, and some *apparatus*, I am sure we could make Physical Drill a big factor in the life at Concord High School and the results would be very far-reaching.

Respectfully submitted,

DOROTHY E. RANNEY.

ANNUAL SCHOOL MEETING WARRANT.

STATE OF NEW HAMPSHIRE.

*To the Inhabitants of Union School District in Concord, N. H.,
qualified to vote in district affairs:*

You are hereby notified to meet at the Auditorium on Prince Street, in said district, on the sixth day of April, 1922, at 7.30 o'clock in the evening, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the report of the Board of Education for the past year.
4. To choose three members of the Board of Education to hold office for three years, to fill the vacancies arising from the expiration of the term of office of Harry H. Dudley, Lillian R. Shepard, and Harry F. Lake, and to choose one member to hold office for one year, to fill the vacancy arising from the resignation of Omar S. Swenson.
5. To choose one or more auditors for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year.
8. To see if the district will vote to erect a suitable building on the Millville School lot to take the place of the present

two-room building thereon, known as the Millville School, raise and appropriate money, appoint a committee with power to erect the same and authorize a contract with the City of Concord for its credit as contemplated by the laws of the State of New Hampshire and take such other and further action as may be necessary to the completion of the premises.

9. To see if the district will vote to erect a frame addition to the building of the Morrill School of Mechanic Arts on the east side thereof, raise and appropriate money and further provide for the erection of the same.

10. To transact any other business that may legally come before said meeting.

Given under our hands this eighth day of March, 1922.

H. H. DUDLEY,
OSMA C. MORRILL,
ELISABETH R. ELKINS,
W. STANLEY EMERY,
JOSEPH S. OTIS,
CHARLES DUNCAN,
HARRY F. LAKE,

Board of Education of Union School District.

I certify that on the sixteenth day of March, 1922, I posted a copy of the written warrant attested by the Board of Education of said district, at the Police Station in the City of Concord, N. H., being a public place within said district, and a like attested copy at the place of meeting within named.

(Signed) LOUIS J. RUNDLETT.

March 29, 1922.

Personally appeared before me, on this date, the said Louis J. Rundlett, and made oath that the above certificate signed by him is true.

(Signed) ISAAC HILL,
Justice of the Peace.

A true copy of the warrant, return of service, and certificate of oath.

RECORD OF SPECIAL MEETING.

In accordance with the foregoing warrant a special meeting of the legal voters of Union School District was held at the City Auditorium in Concord, N. H., on Thursday, July 27, 1922, at 7 o'clock p. m.

In the absence of the clerk, on motion of Mr. Carl H. Foster, the moderator was instructed to cast one ballot for Mr. Francis T. Clayton for clerk pro tem of the meeting, and he was declared duly elected and took the oath of office as clerk pro tem before Louis C. Merrill, Justice of the Peace.

The moderator then read the warrant for the meeting.

Harry F. Lake, Esq., moved that the vote adopted under article 9 of the warrant for the meeting of the School District held April 6, 1922, be amended by striking out the words "east" and "contiguous" and substituting in place thereof the words "west" and "joined" respectively, so that the vote thus amended shall read as follows:

Voted: That a permanent brick building be erected on the west side of and joined to the Morrill School of Mechanic Arts for the better accommodation of the pupils; that the Board of Education of Union School District be and hereby are appointed a committee with authority to erect and furnish said building, to employ architects, agents and such other assistants as they may require and in the name and on behalf of Union School District to do such other acts and enter into such contracts and agreements as may be necessary to carry this vote into effect; that the sum of ten thousand dollars (\$10,000) be and hereby is appropriated for the erection and completion of said building; that the

indebtedness of the district arising from the erection, equipment, and completion of said building, be funded at a rate of interest not exceeding four and one-half per cent ($4\frac{1}{2}\%$) per annum and that a sufficient sum of money be assessed upon the polls and ratable estates within Union School District on the first day of April in each year thereafter to meet the payments of the interest and the principal of said indebtedness at the date or dates of maturity of principal and interest as the same may be fixed, as hereinafter provided; and that the money obtained by said assessments be and hereby is appropriated to make said payments; that the district request the City of Concord to aid in funding the indebtedness of the district arising from the construction and furnishing of said school building as the city is authorized to do by law, provided said city will borrow the money necessary for the purpose set forth in this vote and will allow the district to have the use of the money so borrowed, and further, that, if this request is complied with, the district will seasonably pay the city sufficient sums of money to enable the city to meet the payments of the principal and interest upon this indebtedness so created, as the same may fall due, and all incidental expenses, and will apply the money to be raised as herein provided to the payments aforesaid; and said committee is hereby further authorized to make and request of the city the date or dates when the principal of said indebtedness and the interest thereon shall mature and do all other acts and things necessary to carry this vote into effect.

After discussion by Hon. N. E. Martin and Hon. James W. Remick in support of a petition presented by Mr. Martin in opposition to the proposed change, and explanations and discussion by Mr. Lake and Mr. Rundlett, Mr. Martin moved that the motion of Mr. Lake be indefinitely postponed, which motion was seconded.

The moderator called for a rising vote, and appointed Hon. Henry E. Chamberlin to count the votes. The result showed 87 in favor of indefinite postponement and 24

against, and the motion to indefinitely postpone was declared adopted.

On motion of Hon. N. E. Martin, duly seconded, it was voted to adjourn.

RECORD OF SPECIAL MEETING.

A special meeting of Union School District was held in Parker School Hall in Concord, N. H., on Wednesday, November 29, 1922, at 7.30 p. m., in accordance with the foregoing warrant.

The moderator read the warrant for the meeting, and stated that the proceedings of previous meetings would be published in the annual report and their reading would be dispensed with unless there was objection.

ARTICLE 1. Mr. Harry F. Lake offered the following vote and moved its adoption:

Voted: That the agreement dated November 13, 1922, between the City of Concord and Union School District acting through the properly qualified members of the Board of Education, relating to the issue of forty thousand dollars (\$40,000) of bonds of the City of Concord, the proceeds of which are to be used by said Union School District to the extent of thirty thousand dollars (\$30,000) in erecting the new school building in the Millville District, so called, and ten thousand dollars (\$10,000) in building the annex to the Morrill Training School building, and all other actions of the Board of Education and its respective building committees taken in reference to the said bonds, be and the same are hereby ratified, approved and confirmed as the acts of the district, said contract being as follows:

WHEREAS, Union School District in the City of Concord, New Hampshire, at a meeting duly called and held at the Auditorium, in the City of Concord, on the evening of Thursday, April 6, 1922, passed votes of which the following are copies.

(1) *Voted:* That a school building be erected and equipped upon the Millville School lot with accommodations for at least one hundred twenty pupils in place of the building now standing on said lot and that the Board of Education of Union School District be and hereby are appointed a committee with authority to determine the location of said school building upon said Millville School lot, to erect and furnish said building, to employ architects, agents and such other assistants as they may require and in the name and on behalf of Union School District to do such other acts and enter into such contracts and agreements as may be necessary to carry this vote into effect; that the sum of thirty thousand dollars (\$30,000) be and hereby is appropriated for the erection and completion of said building; that the indebtedness of the district arising from the erection, equipment, and completion of said building, be funded at a rate of interest not exceeding four and one-half per cent ($4\frac{1}{2}\%$) per annum and that a sufficient sum of money be assessed upon the polls and ratable estates within Union School District on the first day of April in each year thereafter to meet the payments of the interest and the principal of said indebtedness at the date or dates of maturity of principal and interest as the same may be fixed, as hereinafter provided; and that the money obtained by said assessments be and hereby is appropriated to make said payments; that the district request the City of Concord to aid in funding the indebtedness of the district arising from the construction and furnishing of said school building as the city is authorized to do by law, provided said city will borrow the money necessary for the purpose set forth in this vote and will allow the district to have the use of the money so borrowed, and further, that, if this request is complied with, the district will seasonably pay the city sufficient sums of money to enable the city to meet the payments of the principal and interest upon this indebtedness so created, as the same may fall due, and all incidental expenses, and will apply the money to be raised as herein provided to the payments aforesaid; and said committee is hereby further authorized

to make and request of the city the date or dates when the principal of said indebtedness and the interest thereon shall mature and do all other acts and things necessary to carry this vote into effect.

(2) *Voted:* That a permanent brick building be erected on the east side of and contiguous to the Morrill School of Mechanic Arts for the better accommodation of the pupils; that the Board of Education of Union School District be and hereby are appointed a committee with authority to erect and furnish said building, to employ architects, agents and such other assistants as they may require and in the name and on behalf of Union School District to do such other acts and enter into such contracts and agreements as may be necessary to carry this vote into effect; that the sum of ten thousand dollars (\$10,000) be and hereby is appropriated for the erection and completion of said building; that the indebtedness of the district arising from the erection, equipment, and completion of said building, be funded at a rate of interest not exceeding four and one-half per cent ($4\frac{1}{2}\%$) per annum and that a sufficient sum of money be assessed upon the polls and ratable estates within Union School District on the first day of April in each year thereafter to meet the payments of the interest and the principal of said indebtedness at the date or dates of maturity of principal and interest as the same may be fixed, as hereinafter provided; and that the money obtained by said assessments be and hereby is appropriated to make said payments; that the district request the City of Concord to aid in funding the indebtedness of the district arising from the construction and furnishing of said school building as the city is authorized to do by law, provided said city will borrow the money necessary for the purpose set forth in this vote and will allow the district to have the use of the money so borrowed, and further, that, if this request is complied with, the district will seasonably pay the city sufficient sums of money to enable the city to meet the payments of the principal and interest upon this indebtedness so created, as the same may

fall due, and all incidental expenses, and will apply the money to be raised as herein provided to the payments aforesaid; and said committee is hereby further authorized to make and request of the city the date or dates when the principal of said indebtedness and the interest thereon shall mature, and do all other acts and things necessary to carry this vote into effect.

AND WHEREAS, the Board of Aldermen of the City of Concord, in compliance with requests contained in the votes above copied, on Monday, the 11th day of September, 1922, passed an ordinance for the issue of city bonds to raise the money required by said district as above said, said ordinance being as follows:

Resolution, Authorizing the City of Concord to borrow money in aid of Union School District, in said Concord.

Resolved by the Board of Aldermen of the City of Concord, as follows:

Section 1. That for the purpose of paying for the new Millville School building and the addition to the Manual Training School, the city borrow the sum of forty thousand dollars (\$40,000) and issue bonds therefor, as provided in Chapter 89 of the Public Statutes and Chapter 129 of the Laws of 1917, and that the mayor and city treasurer be and hereby are authorized to make and execute, sign and affix the seal of said city thereto, bonds for the sum of forty thousand dollars (\$40,000), in accordance with the request and upon the terms contained in the vote of the district passed at its annual meeting held April 6, 1922,—said bonds to be forty in number, and of the denomination of one thousand dollars (\$1,000) each, to be dated October 1, 1922, and payable to bearer, with interest coupons attached, bearing interest at a rate not in excess of four and one-quarter per cent ($4\frac{1}{4}\%$) per annum, payable semi-annually, on the first day of April and the first day of October in each year; said bonds to become due and payable serially, \$2,000 to be

payable the first day of October, 1923, and \$2,000 on the first day of October of each succeeding year until and including October 1, 1942; the principal of said bonds and the interest coupons attached to be made payable at the National Shawmut Bank of Boston, Massachusetts, or at the office of the city treasurer, in Concord, New Hampshire.

Section 2. The city treasurer is hereby authorized to procure proposals for the sale of the bonds hereby authorized, and whichever bid seems for the best interest of the city shall be accepted by him, provided the same is approved by the Finance Committee. The right is reserved, however, to reject any and all bids.

Section 3. The mayor and city treasurer are hereby authorized to execute in the name and on behalf of the city such agreements in writing between it and said district as they may deem necessary and advisable to protect the rights of the respective parties growing out of this transaction.

Section 4. This Resolution shall take effect upon its passage. NOW, THEREFORE, this is to witness:

First: That in accordance with the said Resolution the City of Concord will issue and deliver to said district its bonds to the amount of forty thousand dollars (\$40,000), in the denomination of one thousand dollars (\$1,000), dated October 1, 1922, drawing interest at a rate not to exceed four and one-half per cent ($4\frac{1}{2}\%$) per annum, payable semi-annually, on the first day of April and the first day of October of each year.

Second: That said district is to have the use of the money received from the sale of said bonds until said bonds become due.

Third: That said district will seasonably pay to said city sufficient sums of money to enable the city to meet the payments of principal and interest of said bonds as the same become due, and incidental expenses growing out of their

issue; and will apply the money to be raised under said votes to said payments.

Fourth: That said district will indemnify the said city and save the same from all loss, costs, and expenses to which it may be subjected by reason of making and issuing said bonds.

Fifth: That when said district has fulfilled its agreements contained in Articles 3 and 4 above, it shall be discharged from all further liability to said city by virtue of this transaction within referred to.

IN WITNESS WHEREOF, the said parties have set their corporate names to this agreement in duplicate and interchangeably delivered the same this 13th day of November, 1922, by their respective agents duly authorized.

REPORT OF THE BOARD OF WATER
COMMISSIONERS.

CONCORD, N. H., February 24, 1923.

To the Mayor and Board of Aldermen of the City of Concord:

We hereby submit the annual report of the superintendent for the year 1922 of the condition of the water system of the city.

The report shows the financial condition of the system and work done during the past year and many other details, and is so complete that nothing remains to be added.

The water system is in its usual first-class condition and giving perfect satisfaction.

Respectfully submitted,

EXTENSIONS AND IMPROVEMENTS.

Distribution pipes laid in 1922:

Park Street, extended west from North Main Street, 62 feet of 10-inch pipe.

Hammond Street, east from Hall Street, 498 feet of 6-inch pipe, replacing 4-inch iron pipe.

Giles Street, Warren to School Street, 770 feet of 6-inch pipe, replacing 770 feet of 4-inch cement-lined pipe.

Dunklee Street, extended south from Pillsbury Street, 193 feet of 6-inch pipe, replacing 93 feet of $\frac{3}{4}$ -inch.

White Street, north from Rowell Street, 180 feet of 6-inch pipe, and south from Blanchard Street, 6 feet of 6-inch pipe; 300 feet of 1-inch discontinued.

Rowell Street, extended to White Street, 34 feet of 6-inch pipe.

Bradley Street, Perkins to Penacook Street, 260 feet of 6-inch pipe; 260 feet of 1-inch discontinued.

Penacook Street, east from Bradley Street, 153 feet of 6-inch pipe; 153 feet of 1-inch discontinued.

Martin Street, Albin to Walker Street, 400 feet of 6-inch pipe; 182 feet discontinued.

Walker Street, at Albin Street, 50 feet of 6-inch pipe, replacing 50 feet of 4-inch.

Washington Street, Rumford to Essex Street, 240 feet of 6-inch pipe; 501 feet of 6-inch cement-lined pipe discontinued.

Woodman Street, east from North Fruit Street, 254 feet of 4-inch pipe and 96 feet of 2-inch pipe, replacing 1-inch.

Also 230 feet of 1-inch pipe.

On hydrant branches, 14 feet of 8-inch pipe and 37 feet of 6-inch pipe; 11 feet of 4-inch iron and 14 feet of 6-inch cement-lined pipe discontinued.

Total length of main and distribution pipes now in use, 382,628 feet, or 72.50 miles.

Nine gates were added during the year; one was discontinued.

Total number of gates now in use, 1,075.

Two new hydrants have been set as follows: On Holly Street, at southeast corner of Dunklee Street; on South Main Street, Penacook, near East Canal Street.

One hydrant has been discontinued. Total number now in use, 471.

Fifty-three services have been laid, consisting of 772 feet of $\frac{3}{4}$ -inch; 357 feet of 1-inch; 22 feet of $1\frac{1}{4}$ -inch; 40 feet of 2-inch galvanized iron pipe; and 192 feet of $\frac{1}{2}$ -inch cast iron pipe.

Four 6-inch high service connections have been made for hydrant and sprinkler service for the following premises: Eagle Hotel, Patriot Building, Boston Store and Concord Lumber Co.

Sixteen services have been discontinued. Total number in use, 3,961.

Total length of service pipes, 93,750 feet, or 17.75 miles.

Eighty-five services have been relaid and curb valves placed on 43 old services.

Sixty-six new meters have been set and 9 meters have been removed, making total now in use 2,767.

The height of the water in Penacook Lake is shown by the following table:

HEIGHT.					
January	1,	182.35	July	1,	185.55
February	1,	182.60	August	1,	185.00
March	1,	182.50	September	1,	184.00
April	1,	185.20	October	1,	183.00
May	1,	185.30	November	1,	182.65
June	1,	185.00	December	1,	182.20

The lowest point in the height of the water was 181.85 on December 31, the highest was 185.80 on June 25, mean height for the year was 183.98, which was .02 feet higher than the mean height for 1921.

During the winter of 1921 and 1922 an inspection by the state forester of the white pine plantation and native growth on the Water Works property at Penacook Lake disclosed

the fact that there was some infection of the white pine blister rust. The fact has been established that the blister rust is spread by traveling from pine to the gooseberry and currant bushes, and back from the gooseberry and currant bushes to the pine. In order to prevent further spread of the disease it is necessary to remove the currant and gooseberry bushes from the infected areas. This method was followed over the land in control of the Water Works, covering an area of nearly 400 acres, and on a protective area of 700 acres on land adjoining the Water Works property. The state furnished a foreman and five men, who went carefully over the ground and removed 6,256 wild currant and gooseberry bushes. The cost of the foreman was borne by the state and the cost of men by the Water Works. The expense to the Water Works for the removal of these bushes was \$174.05, at an average cost per acre of 22.3 cents.

The highway at the head of the lake, which divides the small pond from the lake, has been raised about one foot and widened nearly ten feet. The embankments were rubbled with large field stones and a fence similar to that in use by the Highway Department was built on both sides of the road.

It is planned to plant the adjoining land purchased from Mr. Robert Crowley to Norway pines this coming spring.

I wish to make special mention of one branch of our work that is beginning to require a great deal of attention, and that is the relaying of service pipes. The condition of the pipes thus far removed would indicate that it would have been unwise to continue the services any longer.

In conclusion I wish to express to the members of the board my thanks for their advice and hearty co-operation during the year.

Respectfully submitted,

PERCY R. SANDERS,

Superintendent.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Board of Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1922.

The department responded to 81 bell alarms and 323 still alarms.

	Bell.	Still.	Total.
Precinct,	49	240	289
Penacook,	18	65	83
East Concord,	8	5	13
West Concord,	6	13	19
	—	—	—
	81	323	404

This report will be found to contain statements in detail embracing the amount of expenditures, a complete roll of the department with residence and occupation of each member, a record of all fires and alarms which have occurred during the year and the causes thereof as nearly as could be ascertained, with the names of the owners or occupants and the value, loss, insurance, and insurance recovered in each case.

Again, as was the case in 1921, the number of fires and the monetary loss exceeds all previous records. The apparatus is in good condition. The bodies of three combination pieces were transferred to new chassis during the year.

The fire alarm system of the precinct and Penacook are in good condition, but, as is generally known, some circuits in the precinct are abnormally large.

Two alarm boxes, one public and one private, were added to the precinct system.

One thousand feet of hose were added to the complement, but failed to cover the amount condemned for fire purposes. Frequent and strenuous use of hose has made serious inroads in the complement, a condition which should be overcome at once.

Respectfully submitted,

W. C. GREEN,
Chief Engineer.

4-4-4. April 30, 12.50 p. m. Brush fire on the Loudon Road. This was the beginning of one of the most dangerous forest fires visiting this city for years. Fire originated on the Allard lot and, driven by a high wind, traveled like a race horse. Before extinguishment it had crossed the No. Pembroke Road and extended to the Soucook River, even jumping that stream in three places. Conservative estimate of area burned, over 1,200 acres. That no buildings were destroyed was most fortunate and was due to intelligent work in the lines of back-firing, ploughing, etc. Fire not officially declared out until 5.00 p. m., May 1.

Pembroke force materially assisted the Concord contingent in mastering the situation. Loss unknown, but very little valuable timber land was within the scope of the blaze. Details conveyed as occasion required by Combination 1 car, taxis, etc. Details in command of 1st Asst. Engineer W. J. Coffin and Fire Warden A. Chickering, Pembroke.

STILL. April 30, 3.15 p. m. Information received that the fire on the Dooning lot which had received attention in the morning was again burning. As the Concord force had been considerably weakened by drafts made upon it on account of the Plains fire, arrangements were made with the Pembroke authorities to look after it. Extinguished by Pembroke force. No loss.

Box 47. May 3, 9.25 p. m. Fire in factory owned and occupied by the J. E. Symonds Table Co., Symonds Court. Combination car, steamer and hose wagon responded, as did Torrent Hose Co. from Boscawen side, and quickly had three hydrant and two steamer streams on the fire. Motor-driven pumping engine with detail were sent from the precinct and had two more lines. The fire started in the boiler room from flare-back of fire in boiler after it had been banked for the night, quickly igniting the sawdust and shavings in a room next to the boiler room and rapidly extending the whole length of the building, evidently following the pipes used to convey sawdust and shavings to the boiler room. The main shop, store houses, dry house and office were a complete loss. A large amount of lumber in the yard was burned and a dwelling house owned by the company and occupied by Louis Dione was badly damaged, and it was only by keeping the building thoroughly wet that the C. M. and A. W. Rolfe plant and the George R. Bean residence were prevented from burning. During the fire, two employees, John Amor and Arthur Couch entered the shop, were overcome with smoke and perished, their bodies being found the next morning. Pioneer Engine worked thirteen consecutive hours. Eagle Engine worked seven hours and fifteen minutes. Forty-five hundred feet of hose wet. Recall 4.35 p. m., 4th instant.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

*To the Mayor and Board of Aldermen of the City of Concord,
N. H.:*

The Trustees of the Public Library herewith transmit the annual report of the librarian, showing in outline the work of the year, which compares favorably with that of recent years.

During the year 1922 the City of Concord has been most fortunate in having the same faithful and efficient servants in charge of its library as in years past, whereby a maximum of service has been maintained at a minimum of cost.

The trustees find it necessary to make some increases in salaries in order to bring them more nearly in line with those attached to library service in the other cities of the state and with the salaries in other important branches of public service. This increase will be met by the income from the Benjamin Kimball Fund, which has become available during the present year.

There should be a somewhat larger expenditure for books, and for the care and upkeep of the building and grounds during the coming year.

In view of these conditions the trustees voted to ask the Mayor and Board of Aldermen to appropriate the sum of \$7,000, the same as last year, for the support of the library for the year 1923, believing this to be the smallest amount possible for the creditable and efficient conduct of the library. This appropriation is requested on the understanding that the income from the Samuel C. Eastman Fund is to be added to the principal as a permanent fund

available for additional or adequate building accommodations whenever it may seem best to undertake such improvements.

Respectfully submitted,

THOMAS W. D. WORTHEN,

President of the Board of Trustees.

February 15, 1923.

REPORT OF THE CITY LIBRARIAN FOR 1922.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN: The annual report is herewith submitted:

In the matter of service, there are these figures:

Number of volumes of non-fiction lent in 1922,	11,794
Number of volumes of fiction lent,	59,581
Number of periodicals lent,	4,824
	<hr/>
Total circulation,	76,199

In regard to the present size of the library, the following:

Number of bound volumes at beginning of year,	33,659
Number added by purchase and by binding material not otherwise counted,	604
Number of bound volumes added by gift,	96
	<hr/>
	34,359
Discarded,	313
	<hr/>
Total number owned at end of year,	34,046

The number of volumes discarded seems large; our annual net gain *is* small, and the library has only a few more thousands than it had a quarter of a century ago. That is because it has been weeded again and again. My first cleaning out consisted of sending back to Washington sacks of government documents, because all files of these could be found across the square at the State Library, and our own stack rooms were crowded. Soon we gave up the wasteful purchase of genealogies and town histories—both expensive

lines of publications—as the N. H. Historical Society buys those. From time to time we take from our congested shelves the works on natural science and the useful arts which have become hopelessly antiquated. And hardly a week passes without our culling wornout volumes of fiction or duplicate copies of magazines to give to sanatoriums, the jail, or other institutions; or to borrowers who live far from the library and who do not want to get storm-bound in their homes without anything to read.

In these various ways we relieve our shelves; also, we continually move little-used non-fiction to our basement. When we can no longer squeeze and readjust our volumes, if nobody has given Concord a new and admirable library building by that time, perhaps we can enlarge our shelving and acquire a children's room besides, by running out the library on the east to the fence which is our boundary in that direction. Possibly by then our building fund will have been enriched by some bequests.

It is odd that every year brings us practically the same number of new borrowers; 709 registered the past year; of these 372 were of school age.

It grieves us deeply that our circulation seems an ebbing tide, having reached high-water mark in 1908, when it was over 96,000. In 1922 it was not much more than 76,000. But in the intervening years, automobiles and moving pictures have cut in as competitors to a library's attractions; the High School has installed a library of 2,300 volumes and has a librarian of its own; at the Walker School the children have a library of around 400 volumes; the State Library seems to have taken a new interest in buying general material and loaning it; and now, winter sports have arisen to rob us of our customers in the very season and on the Saturday afternoons when we used to have our heaviest custom.

These facts and trends stare our library in the face. It is not likely that we shall regain our former enviably large circulation unless Concord has a marked increase in population. It seems to me that, therefore, this library's duty is

not to try to become a large and loosely-knit-together one, nor to allow itself to go to seed, but that it should endeavor to be abreast of the times and to keep tidied up in its material, able to put hand on the book or article wanted by live and inquiring minds.

Even with this modest aspiration as to its field of action, the library needs better accommodations inside it, both for the public and for the working staff. We lack almost every feature which a modern library has, though we have the fundamental advantage of being on a corner lot in a central location. A little lecture hall would be generally used and appreciated—that is, in a winter when there was not a coal shortage. As it is, this season, the Trustees of the Shakespeare Room kindly voted to omit meeting there during the extremely cold months, so as to aid the library in conserving fuel. It is a pity to have only an unsupervised alcove for the children, as the little readers there walk off with many a book, and it is too bad to give them so easy an opportunity to pilfer. Speaking of their possibly unwitting deprecations reminds me of the worse and increasing scissoring by adults of pictures and pages from the magazines in the reading room.

It is not every year that our so-called Concord Collection receives an addition, but in 1922, the following (autographed) new books by local authors have been put into that locked case in the reference room: *Steel*, by Charles Rumford Walker; *New Hampshire in History*, by Henry H. Metcalf; *Barefoot Days and Sundown Songs*, by Raymond H. Huse; *The Thoughts of Youth*, by Samuel S. Drury; *Songs of Home and Others*, by Martha S. Baker; *Vacation Days*, by Willis G. Buxton; *The Island Cure*, by Grace Blanchard; A small compilation of verses by pupils in the Chandler School; A Memorial to Joseph W. Lund; and the admirable illustrated booklet on Concord, issued by the Chamber of Commerce.

Last April occurred the ninetieth birthday of our West Concord borrower, who for at least twenty years has taken care, at her house, of the box of books sent every few months

to that ward. Enjoying them herself, Mrs. Sarah Quimby has for love, *and not for money*, seen accurately to the charging out and calling in of the volumes. Neither in West Concord, East Concord or Penacook is there an appreciable desire for anything except stories to be supplied our deposit stations; although Penacook customers, being fitted out with regular cards and having at Mr. Parker's store a card catalog to consult of our monthly additions, call for some non-fiction. And always when a student has to work up his side of a debate, or a woman has to write a paper, or a teacher to rise to a new position, or a busy lawyer to wax eloquent on some public occasion, or a minister to observe this or that Sunday, *then* our library becomes invaluable. All these types of people *and many more* turn to it as naturally as a small boy goes to his father with a question.

We are fortunate in being able to have Mrs. Grace Farnum help us through extra busy hours or days; and it is she who takes charge of the library on Sundays, when the reading room is open from 2 to 5 o'clock. What she smilingly calls herself, our "Prop," she indeed is.

I cannot omit mention of the benefit our library has derived from the presence in town during the past three and a half years, of Miss Grace Kingsland, Secretary of the N. H. Library Commission. She leaves now to take a better position, and our entire staff feel that we shall miss unspeakably her wise counsel in library matters and her good fellowship. She has quickened us, along with all other librarians in the state, to new efforts and made suggestions we were glad to follow.

Such incitation led to our first observance of what has come to be a national Children's Book Week, in November. For each of the six days we had a programme which mingled pleasure and instruction for the little folks, and though greatly hampered by having no real children's room, we managed to wake, in many juveniles and a few parents interest in books of more than ordinary literary value. Mrs. M. C. Knapp and Mrs. Nelson Knowlton obligingly told stories one afternoon to the sixty assembled.

In the December *North American*, one of the big-brained librarians, John Cotton Dana of New Jersey, has an article entitled, "Changes in Reading," which is, on the whole, encouraging. He acknowledges:

"As the movie became popular, the number of books lent by public libraries decreased. This decrease was accompanied by a slightly increased demand for those novels chiefly of the baser sort, which were pictured in local movie theatres. Evidence is entirely lacking that what are called 'educational films' aroused any demand whatever for books on the countries, cities, processes or histories depicted by them."

But, Mr. Dana proceeds, "Print is used more than ever, and we are forming the habit of depending upon it for a certain type of facts. Take, for a simple example, the boy who hears of radio apparatus. He straightway wishes to make one. He reads directions in books—he follows them and gets results. He now realizes the value of print and—note this—he has subjected himself, with happy results, to the authority of experts. Are his mental qualities and habits such as to make it possible for him to be led to read, and to trust in the words of experts in other lines—in the lines, for example, of eugenics, education and enlightened effort? The widespreading, the superficially effective and the penetrating extension of the printed page and its use, open to us the possibility of an *affirmative answer*."

More encouraging even is the dictum of the magistrate who lately, in passing sentence upon a book thief, said, "A book is a family utensil like furniture and is necessary for the welfare of the family"; for what the single volume is to the single home, the public library is to the welfare of the town—necessary!

Respectfully submitted,

GRACE BLANCHARD,

Librarian.

IN MEMORIAM

MR. WILL B. HOWE

Born July 3, 1859

Died April 1, 1922

*Appointed City Engineer
of the
City of Concord, N. H.
March 21, 1893*

Mr. Howe was an outstanding figure in the field of municipal engineering. The accomplishment of the Engineering Department is a tribute to his leadership.

REPORT OF ENGINEERING DEPARTMENT.

CONCORD, N. H., January 1, 1923.

To the Board of Aldermen:

GENTLEMEN: Herewith is submitted the thirtieth annual report of the Engineering Department.

This report shows the financial statement and in brief form under separate headings the work of the past year.

Appropriation,		\$5,125.00
Paid engineer,	\$2,400.00	
Paid assistants,	2,281.60	
Paid for supplies and incidentals,	300.32	
Assessors' Map,	140.82	
	<hr/>	
Total expenditure,		\$5,122.74
		<hr/>
Unexpended balance,		\$2.26

SEWERS.

The construction and repair statement will be found in detail in the report of this department to the Board of Public Works, and published as a portion of their report.

WATER WORKS.

The sheet plans of pipe lines and appurtenances were brought up to date and blue prints made of same.

Grades were given for road improvements at the head of Penacook Lake and levels given for fencing.

FIRE DEPARTMENT.

The fire-alarm and hydrant maps were corrected by adding new hydrants; blue prints of same were furnished the chief of the Fire Department.

BUILDING PETITIONS.

One hundred and twenty-three petitions were presented to the chief of the Fire Department and myself. Hearings were held on the premises of all petitioners and our action recorded upon the original petition, which petitions are on file with the city clerk.

Two of the petitions were referred to the Board of Aldermen, the remainder being granted as petitioned for.

CEMETERIES.

Levels given for grading block south of block D-D.

Levels for culvert, block N to brook.

Survey of block E-E and layout of southerly portion into lots.

Plans made for new garage.

The deed book showing transfers of lots was brought up to January 1, 1923.

ASSESSORS' MAPS.

It was the intention of this department to locate all new structures built in the city since the last survey was made, but the activities of the other departments required our assistance to such an extent that there was no time for this work. It is hoped that in 1923 this work can be done as there are many additions to be made to the maps.

The real estate transfers have been kept up to date and the necessary map changes made. Total number of transfers recorded, eight hundred and nine.

We are now replotting some of the larger maps so that they will be more convenient for field work for the assessors.

PLAYGROUNDS.

Plans of the city were made for Mr. Bruce, playground instructor, also detail work in the matter of bathhouses and layout of playgrounds.

ACCIDENTS.

Survey and plan made of Clough's Mills Bridge on account of J. E. Normandeau truck accident.

PARKS.

Levels given for skating rink at White Park.
Survey of entrance of West Garden.

HIGHWAY WORK.

Cross sections and grades for Ferry Street; roadway, gutters and curb from North Main Street to Boston and Maine Railroad.

Cross sections and grades for Park Street; roadway, and gutter from North State Street to Green Street.

Cross sections and grades for Green Street; roadway, curb and gutter from Centre Street to Pleasant Street.

Cross sections and grades for School Street; roadway, gutter and curb from North State Street to Green Street.

Cross sections and grades for Centre Street; roadway, gutters and curb from North State Street to west line of Union Street.

Cross sections and grades for Union Street; roadway, gutters and curb from Centre Street, north.

Grade stakes set for grading Broad Avenue (so called) from Broadway to Bow Street, 1,080 feet.

Cross sections Jackson Street at Mason's Court.

Cross sections and grades for Washington Street; roadway (Ward 1) from South Main Street, west 800 feet.

Railroad Square.

Survey and cross sections for automobile parking area.

Gutters.

Grades given for coal tar concrete, North Main Street, Capitol Street to Freight Street.

Grades given for Jackson Street, west side, north from Franklin Street, 150 feet.

Sidewalks.

Grade stakes set as follows:

- Highland Street, north walk, 225 feet.
- Washington Street, south walk, 132 feet.
- Concord Street, south walk, 132 feet.
- Chestnut Street, south walk, 343 feet.
- Dunklee Street, west walk, 308 feet.
- South Main Street, east walk opposite Gas Co., 248 feet.
- Jackson Street, west walk, 150 feet.
- South Spring Street, west walk, 429 feet.
- Pine Street, east walk, 280 feet.
- Park Street, north walk, 84.22 feet.

Profile Clinton Street, for sewer.

Park, Centre, Union, Green and School Streets, for improvement.

Foster Ward, Margaret Pillsbury Hospital.

Cottage Court.

Mason Court.

Proposed street leading off North State Street just north of Penacook Street.

Penacook Lake.

Typical section of roadway, Ferry Street.

Block E-E, Blossom Hill Cemetery.
Clough's Mills Bridge, floor system.
Bridge over penstock at St. Paul's School, Millville Road.
Two hundred and ten blue prints of various plans.
New sheds, city lot on Warren Street.

Sewer Connections Inspected.

On November 13 the work of inspecting sewer pipes from houses to main sewers, formerly done by the sanitary officer, was turned over to the city engineer.

There have been eight connections made since November 13, all of which were inspected and recorded by me; all were laid in conformity to the plumbing laws.

The past season has been a busy one for this office and work was carried on with a small corp of assistants.

The personnel of the Engineering Department is as follows: Chief clerk, Miss Grace L. Hubbard, who commenced work on April 24.

Mr. Edward E. Beane, assistant engineer, who entered the employ of the city April 20.

Mr. Arthur McCauley, rodman, who worked during May, June, July and August; all of whom have rendered splendid assistance and deserve praise for the work done.

For the support and co-operation of your board I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,

City Engineer.

REPORT OF THE BOARD OF HYDRANT COMMISSIONERS.

CONCORD, N. H., December 31, 1922.

To the Board of Aldermen:

GENTLEMEN: The seventeenth annual report of this board, for the year 1922, is herewith submitted.

On July 26, the full board met and recommended the installation of the following hydrants:

Low service at west end of Holly Street on southerly side.

High service on northerly side of Bridge Street at east line of Carpenter Paint Shop, this hydrant to be set in 1923.

On October 6 we recommended the installation of a four-way hydrant at the southwest corner of South Main and Freight Streets, said hydrant to be set in 1923.

No other sessions were held during the year.

Respectfully submitted,

FRED W. LANG,
W. G. GREEN,
PERCY R. SANDERS,

Board of Hydrant Commissioners.

REPORT OF THE BOARD OF PUBLIC WORKS.

REPORT OF THE HIGHWAY DEPARTMENT.

To the Board of Public Works:

My report for the year ending December 31, 1922, is herewith submitted.

During the past year progress has been made on Green Street and parts of Center, Park and School Streets, of a more permanent type of street construction which I believe should be carried out in the future. This type of road has also been laid on the main highway from the bridge in Penacook to the Boscawen town line and a contract has been let for the same construction on Washington Street, Ward One.

The general upkeep of our streets and roads, caused by increased traffic, demands a large sum of our appropriation, however. Ferry Street, for so many years in need of attention, has been rebuilt with gravel and concrete gutters. The wooden bridges crossing the Soucook River known as the "Clough Mills" and the "Sheep Davis" have been rebuilt in coöperation with the town of Pembroke.

The use of the drag as well as calcium chloride, for dust laying, has been continued.

\$7,584.54 has been used for concrete and tar walks, new and repair.

\$13,124.29 was spent on trunk line maintenance.

The Peerless truck was replaced with two Ford trucks. Approximately 21,500 cubic yards of garbage and 5,200 cubic yards of paper have been collected.

The collection of table garbage, under the supervision of the sanitary officer, has cost this department for seven months \$1,935.47.

I wish to thank the Mayor and the members of the Board for their assistance during the past year.

Respectfully submitted,

ORRIN W. HEAD,
Superintendent of Streets.

The Sewer Department is at times greatly handicapped by not having a permanent organization, but fortunately this season labor was plentiful and of the best quality, and by taking advantage of same the department was able to function to a high degree of efficiency.

On the Broadway job nothing was encountered to retard construction, and the same could be said of Noyes Street, with the exception of water.

On the Clinton Street job bids were asked for excavating, laying pipe and back filling for a distance of 1,000 feet, and building three manholes, the city to furnish pipe, cement, castings, brick and hardware, delivered on the work.

Three bids were received as follows:

	<i>Laying Pipe.</i>	<i>Manholes.</i>	<i>Rock.</i>
John Williams Co.,	\$4.75 pr. lin. ft.	\$35 each	\$10 pr. yd.
N. H. Cement & Cons. Co.,	\$4.85 pr. lin. ft.	\$45 each	\$12 pr. yd.
Colburn Cons. Co.,	\$10.00 pr. lin. ft.	\$75 each	\$ 5 pr. yd.

These bids were rejected by your board on recommendation of your engineer, which action appears to be well taken, as the entire work of laying entire length of 2,144 feet complete was \$4,023.24, or \$1.876+ per foot.

On this work we were obliged to tight curb the ditch for one-half the entire length, owing to the running sand in the bottom of the trench.

On the Rumford and Franklin Street drain we encountered some very hard digging, and also excavated large quantities of boulders varying in size from a one-man stone to a yard size. This work required great care as we had to contend with gas main, two water-pipe mains and main sewer, also house connections from these mains.

This drain serves to carry surface water from Beacon Street to High Street via Rumford and Franklin Streets.

This department also connected all catch basins on this line with manholes, also in Tremont Street, west of Lyndon Street.

The sewer system of Concord, taken as a whole, is in fair condition, but to make it good from a sanitary view, a season's work should be given to clearing main free from roots; on streets where poplar trees exist the pipes are in some instances nearly closed. This condition should be remedied, and I would recommend that all poplar trees be cut down in streets where sewer systems exist.

When catch basins are built to connect with mains they should empty into manholes, and as funds are available those now built should have outlet pipes connected into manholes.

The condition at Prospect Street is bad, and something should be done to relieve it, either by laying a storm sewer or enlarging the present main.

I would recommend that only lateral sewers that are absolutely necessary be built in 1923 and that the energies of the Sewer Department be exerted in putting the present system into working order.

Monthly statements of coal tar sidewalks, etc., were made, showing the location, quantities laid, price for same, and given to the departments or committees having the work done.

In company with one or both of the other members of the committee on locating poles, I have attended to that duty,

attended hearings and meetings of your board and furnished such information from this department as was called for.

For the many courtesies extended to me by your board, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,

City Engineer.

REPORT OF TREE WARDEN.

To the Board of Aldermen:

GENTLEMEN: In submitting a report of the work of the tree warden for the year of 1922 I can only say that as in other years the greater part of the appropriation was expended in caring for the gypsy moths. There were but few brown-tail moths, those being mostly on fruit trees on private property, and there were no elm tree beetles.

After removing the dangerous trees and the poplars where they have caused trouble with the sewers there is but a small part of the appropriation left, which makes it impossible to do anything in the way of planting new trees. So many have been removed in the last few years that the beauty of the streets in many places will be spoiled if something is not done to replace them. I would recommend that more money be appropriated so that some new trees could be set out.

Respectfully submitted,

ALFRED CLARK,

Tree Warden.

REPORT OF CITY SEALER.

COVERING THE PERIOD FEBRUARY 1, 1922, TO JANUARY
1, 1923.

*To His Honor, Henry E. Chamberlin, Mayor, and the Board
of Aldermen:*

Three prosecutions have been made during the past year: one for short weight on bread, one for short measure on berries, and one for short weight on hams. In each instance the offender was found guilty and fined.

Three hundred and ninety-two (392) scales were tested and sealed; six (6) scales were confiscated and fourteen (14) condemned for repairs, which were later reinspected and sealed. Two hundred and twenty-eight (228) weights were tested and sealed; forty-nine (49) wood carts were measured and marked; eighteen (18) reweighings of coal were made, and your sealer has estimated also seven coal bins. Twenty-six (26) five-gallon cans were tested and sealed; two hundred and eight (208) packages containing beans, potatoes, sugar, etc., were reweighed; one hundred and twenty-four (124) tests of automatic pumps were made, four (4) of which were condemned for repairs and one completely condemned. All liquid and dry measures were found correct.

Respectfully submitted,

FRED S. PENDLETON,

City Sealer.

HEALTH DEPARTMENT.

REPORT OF THE BOARD OF HEALTH.

To the Board of Mayor and Aldermen:

Following is the report of the Board of Health for the year ending December 31, 1922:

Mayor Henry E. Chamberlin was ex-officio chairman, Dr. Charles H. Cook was ex-officio secretary and Dr. Sibley G. Morrill was the third member of the body. Meetings were held from time to time throughout the year whenever such meetings were deemed necessary or advisable. In the absence of any great emergencies, such as a severe epidemic of any of the great contagious diseases, such meetings have not seemed to be needed as frequently as formerly, all matters of a routine nature and most of the minor emergencies being handled by the sanitary officer and his assistant. This centralization of authority, so far as is practicable, is felt to be a step in the right direction as it makes for more prompt and efficient service.

For a detailed account of the work of the sanitary office you are referred to the report of the sanitary officer, which is hereby transmitted and made a part of this report. In this report you will note that Mr. Palmer calls attention to the fact that the city has no detention hospital for the proper segregation and care of such cases of smallpox as the health officials may be called upon to handle at any time. It is true that we have been fortunately free from this disease for some years past. This immunity is quite unlikely to be anything like a permanent one, and as already indicated is largely fortuitous. There are, at the present time, many cases of smallpox scattered throughout the

United States as well as in foreign countries. Furthermore, the incidence of the disease seems to be increasing, and it also seems to be increasing in virulence with a correspondingly enhanced mortality.

With the above in mind, together with the facts concerning the increasing facility of intercommunication afforded by our modern methods of travel, it seems almost inevitable that cases of this kind will be encountered sooner or later. Thus it would seem to be the part of wisdom to settle upon some course of action in advance of its necessity.

As stated in several previous reports of this board, we are of the opinion that it ought to be possible to effect some arrangement with the Margaret Pillsbury Hospital, looking toward the solution of this problem as well as other problems with respect to the care of contagious diseases, that are confronting the community.

This board feels that there can be no reasonable doubt about the value of vaccination as a preventative measure against smallpox. We believe that it is our best, and for that matter, at present, our only safeguard against this dreadful scourge of humanity. In spite of a considerable amount of propaganda favoring the abolition of compulsory vaccination we believe that the majority of our thoughtful, intelligent and informed people are impressed with the logic of the case for vaccination and are thus favorably disposed toward this measure irrespective of the law. As for the others who constitute "the anti's" it may very well be conceded that a campaign of education is in order for their benefit and enlightenment. It is conceivable that they may easily be led where it would be found very difficult to drive them.

In any case, whatever may be the course of events, legislative, judicial or educational, it should be borne in mind by the individual that in recent successful vaccination he has a means of acquiring practically certain immunity from this malady.

In this connection, as tending to show how a firm of insurance underwriters, well known throughout the civilized

world, views this matter, may be mentioned the fact that Lloyd's of London has been insuring against death from smallpox due to the prevalence of that disease throughout the British Isles. The premium charged unvaccinated persons being twice that charged those who have been vaccinated. This differential applies to all vaccinated persons irrespective of the time that may have elapsed since the operation was performed. In case it should have been found feasible to establish a rate for those who had been very recently vaccinated there would doubtless have been a much greater difference in the premiums charged.

Thus it will be seen that the propaganda for the abolition of vaccination, which may be said to have had its inception and headquarters in England, has thus far failed to shake the faith of this association of underwriters whose policies, we may safely assume, are determined by hard-headed business men and not by moon-eyed sentimentalists or designing charlatans.

It is an indubitable fact that no responsible medical man has any doubt as to the protection afforded against smallpox by vaccination. With such a ready means at hand for preventing the spread of the disease it would hardly seem to be justifiable to expend large sums of money in providing a building or buildings to be used solely for a detention hospital for this disease. We believe that some way ought to be worked out that would permit the use of the present Foster Ward in case of an emergency. It is thought that this could be done with entire safety and to the advantage of all concerned.

Our city has a pure and abundant water supply, well paved and clean streets, an efficient sewage disposal system, fine parks and playgrounds, comfortable and sanitary schoolhouses, a supply of pure milk thoroughly inspected as to its sources, as well as many other favoring factors which contribute a share toward our general welfare from the public health point of view. As a recent addition to this ever-growing list of such factors should be mentioned the collection of table refuse under the auspices of the

sanitary office. We think that this is a forward step and one that is justified, notwithstanding the not inconsiderable expense involved in the undertaking.

In conclusion it may not be thought out of place to call your attention to the fact that the maintenance of this office with its manifold activities has cost the people of Concord less than twenty cents per capita for the entire year. We believe that no thoughtful person will consider this trifling sum too much to contribute toward maintaining such an undeniably fruitful form of public service.

Respectfully submitted,

HENRY E. CHAMBERLIN, *Mayor*,
CHARLES H. COOK,
SIBLEY G. MORRILL.

Board of Health.

REPORT OF THE SANITARY OFFICER.

To the Board of Health:

GENTLEMEN: The annual report of the sanitary officer for the year ending December 31, 1922, is herewith submitted.

The deaths for the past year were 481, which is 49 more than in 1921, arteriosclerosis claiming 49, the largest number from any one cause. Estimating the population at 23,000 and excluding the non-resident deaths, 192, and the stillbirths, 14, the yearly death rate for Concord was 11.95 per cent. There were 255 deaths at the six public institutions and 226 in the nine wards of the city.

None of the contagious diseases have been epidemic in Concord, but scarlet fever has again been prevalent during the entire year. We have been fortunate in having had only forty-one cases with no deaths, which is thirteen less than in 1921. There were eleven cases of diphtheria with one death, one hundred and one cases of measles, thirty-seven cases of tuberculosis with twenty-seven deaths. Twenty-three of the thirty-seven cases of tuberculosis were from the State Hospital. There were also reported eighty-two cases of venereal disease.

The price of live-weight hogs continued to remain at such a low figure that nearly all of the licensed garbage men gave up the collection of table garbage early in the season. Complaints came pouring into this office that households were unable to dispose of their garbage and it became a general nuisance. As the situation became more acute it was voted at the May meeting of the Board of Public Works to call for bids for the collection of table garbage, and the contract was awarded to John A. Cochran, thereby adding a new department to the Board of Health. The first collection started with a list of one hundred names, and has gradually increased until seventeen hundred families were being taken care of at the end of the year. Two collections per week were made during the summer and one

collection in winter. There was some difficulty in getting started, but the men in charge are faithful and competent, and the work is being efficiently handled at present. The board had supposed it would be a simple matter to make the winter collections, but the extremely deep snow has proved a great handicap, which necessitated the putting on of two-horse teams with two men to a team, thereby increasing the cost of the weekly collection during the winter to nearly double the cost of two collections per week in summer, for the same number of families. This branch of our work is increasing daily and no doubt the demands will be much greater as the warm weather approaches, but I feel that we have taken care of a serious nuisance in establishing this department.

It again becomes necessary, as it has for the past three years, for me to call the attention of the public to the fact that no definite steps have been taken regarding an isolation hospital. Concord has been extremely fortunate in not having had a case of smallpox, but should an epidemic break out of such intensity as the city of Denver and many cities has had, the Board of Health would be absolutely unable to cope with the situation. From September 1 to December 1, 1922, there were 444 cases of smallpox in Denver, with a total of 140 deaths. Because we have been free from smallpox is no sign that we must not be prepared to take care of it should there be an outbreak of this dreaded disease, and I sincerely hope some place will be provided during the coming year.

It is also interesting to note at this time, notwithstanding the propaganda against vaccination, issued by the so-called Medical Liberty League, advising people to resist vaccination, that of the total of 444 cases, 359 victims were not vaccinated, and of the 140 total deaths, 130 had never been vaccinated. The morbidity and mortality of school children was exceedingly small as vaccination was compulsory and was strictly enforced. I know of no better argument for vaccination, in which I firmly believe, than the above statement of facts.

During the year I submitted sixty-nine samples of milk to the State Laboratory for examination, and it is very gratifying that all but four samples of the total number submitted were up to or above the minimum required standard, which is a much higher average than in former years. Of the forty-one milk farms inspected, twenty-two were in good condition, seventeen were fairly good and two were in poor condition. The owners were requested to clean up the barns at once and make the necessary improvements required by law, which was done.

There have been the usual number of complaints and nuisances to be inspected and disposed of. These came largely from dead animals, odors from pigs, stables, rubbish, unsanitary plumbing, refuse in yards and general conditions of premises. The weekly inspection of alleyways in the rear of the business blocks has avoided any accumulation of rubbish.

While there has not been as much construction in the city, it is being resumed gradually, and 217 plumbing inspections were made this year compared with the 135 of 1921. I inspected forty-two sewer connections up to November 13, at which time the Board of Aldermen voted to amend the city ordinance and give the inspection of sewers to the city engineer. By having all the records in charge of the Engineering Department, the public will be served much more efficiently than under the former arrangement, when it was necessary to consult plans in one department and records in another.

Regular inspection of the shores of Penacook Lake, which furnishes the water supply for the city, has shown it to be in excellent condition. Analysis of the water also shows it to be of the usual fine quality.

The appropriation for the year was \$5,000 and the total expenditures were \$4,288.49, leaving a balance of \$711.51. This balance was due to the fact that we had very little contagious disease that needed financial assistance, which is very unusual, as this appropriation was overdrawn in 1921. One hundred and sixty-nine dollars was received from milk license fees.

The following tables show in detail the work of the department:

REPORT OF THE CITY SOLICITOR.

CONCORD, N. H., January 5, 1923.

To his Honor the Mayor and the Board of Aldermen:

GENTLEMEN: I beg to submit herewith my annual report of the legal matters in which the city of Concord was interested during the past year.

John J. McLaughlin v. City of Concord is an action brought against the Concord Water Works for damages for injuries, claimed to have been received by falling into a hole at the new Patriot Building while a sprinkler system was being installed by the Water Works in the new building.

Joseph E. Normandeau v. City of Concord (1) is an appeal from an award made to Mr. Normandeau by the Board of Aldermen for land taken to be used in the construction of the new road known as the "Soucook Cut-off." This appeal is now pending in the Superior Court.

Joseph E. Normandeau v. City of Concord (2) is a claim against the city for damages to a truck and contents owned by the plaintiff which went through the Clough's Mills Bridge so called. This bridge lies partly in Concord and partly in Pembroke and is now a joint bridge. A similar claim has been filed against the town of Pembroke.

Percy Ploude v. City of Concord is a claim for personal injuries alleged to have happened in connection with the above accident at Clough's Mills Bridge. The plaintiff was an employee of Mr. Normandeau and driving a truck at the time of the accident.

Isreal Smith v. City of Concord is a suit for injury alleged to have occurred to a horse while being driven on the Loudon Road, and was settled out of court by a payment to the plaintiff of twenty-five (\$25) dollars.

The case of *Mae E. Cragg and Thomas W. Cragg v.*

Herbert Sargent, Boston & Maine Railroad and the City of Concord, we settled by the payment of \$5,750, of which sum the city of Concord contributed seven hundred (\$700) dollars as its share.

Charles Elgand v. City of Concord is a claim for damages presented by Mr. Elgand, who alleges that his property was damaged because of a defective culvert adjoining his premises. This case is in order for trial at the present term of United States Court at Concord.

At the beginning of the year I started a custom of reporting all accidents involving any of the employees of the city, and also any accidents which might happen upon highways and which were, or might be attributed to defective condition of highways, reports thereof being made immediately. With the assistance of the Police Department, the city engineer and the superintendent of streets, a complete investigation of such accidents and all the connecting circumstances has been made immediately, and it occurs to me that this practice has in many instances saved the city from the trouble of defending claims which were groundless. It is my recommendation that this matter be given more attention, because in my opinion, an immediate and complete investigation of these accidents is very necessary to adequately protect the rights of the city.

I wish to thank the Mayor, Board of Aldermen and the heads of the different departments for their kind coöperation and courtesies extended to me during the past year.

Respectfully submitted,

J. JOSEPH DOHERTY.

BLOSSOM HILL CEMETERY RECEIPTS.

One-half of the receipts for the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

I hereby certify that I have examined the foregoing account of Carl H. Foster, city treasurer, for the year 1922 and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and cash balance to be eight thousand one hundred ninety-eight dollars and seventy-two cents (\$8,198.72), and as treasurer of the city water department, cash balance to be twenty-five thousand fifty-nine dollars and seven cents (\$25,059.07).

I have also verified the account of the special funds and sinking funds of the city in the hands of the city treasurer, and find such special and sinking funds invested, and the income thereof for the year 1922 accounted for, as shown by the book of the city treasurer kept for the purpose.

REPORT OF THE DIRECTOR OF PUBLIC PLAYGROUNDS AND BATH.

FOR THE SEASON OF 1922.

The municipal Playground and Bath Department for 1922 comprised one director and seven field supervisors, and the public play centers numbered five, namely, Kimball Playground, South End Playground, East Concord, Penacook, and the Bath House.

The system aimed to promote healthful outdoor educational recreation, which was made up of recreative play, physical education, mass games, athletics, aquatics, kindergarten work and folk dancing. The work was planned to cover a season of ten weeks, starting June 22 and ending September 1.

During the first week of the playground work all the children of both sexes were registered and a method of classification was instituted which divided the children in groups, or sections, according to their ages. A daily program was introduced, starting at one o'clock and lasting until five o'clock, except Saturdays and holidays. The daily order of events systematized the playground activities by dividing the hours into different play periods. In all the work the educational aspect was emphasized; recreative exercises were devised for the development of the mind as well as the body.

The fundamental idea of the daily program was systematic, graded progression. All the play centers followed the same day's order. Aquatic sports and the teaching of swimming played an important part in the season's work. Instruction in swimming occupied a prominent place in our weekly program, and inter-playground competition was promoted in the form of dual swimming meets.

Regular sessions or weekly conferences for the teaching corps were conducted by the director in the playground

office at City Hall. These morning sessions encouraged suggestions and familiarized the instruction corps with all problems in connection with playground work.

As an example the daily program for the week of July 16 was as follows:

<i>Boys</i>	<i>Girls</i>
1.00 to 2.45 p. m. Track and Field	1.00 to 2.45 p. m. Baseball
2.45 to 3.15 p. m. Field Hockey	2.45 to 3.15 p. m. Track and Field
3.15 to 3.30 p. m. Physical Education Mass Exercise	3.15 to 4.00 p. m. Folk Dancing or Passive Work
3.30 to 4.00 p. m. Boxing and Wrestling	4.00 to 4.30 p. m. Field Hockey or Archery
4.00 to 5.00 p. m. Pyramid Building	4.30 to 5.00 p. m. Physical Education Mass Exercise
Substitute Tuesdays and Thursdays — Six-Inning Baseball Games in place of Pyramid Building	Substitute Tuesdays and Thursdays—Volley Ball, Center Ball, Straddle Ball in place of Baseball or Field Hockey

The boys' department indulged in the following sports and pastimes: Swedish mass drills, pyramid building, track and field athletics, cross country running, baseball, swimming and water sports, wrestling, boxing, quoit games, and kite flying.

In the girls' department attention was given to Swedish mass drills, track and field athletics, baseball, folk dancing, swimming and water sports, volley ball, center ball, straddle ball, field hockey, quoit games, tennis, and archery.

The physical training of the little children consisted of mass Swedish drills, folk dancing, story telling, dramatization of stories, paper cutting, ring mass, and singing games.

In all branches of athletics the so-called major sports such

as track and field athletics, cross country running, baseball, volley, center and straddle ball, field hockey, and archery, leagues were formed, made up of the teams representing the various playgrounds, and they played a series of contests leading to a championship. The inter-playground contests were held on Tuesdays and Thursdays of each week on all the playgrounds.

On Wednesday afternoons the girls' department from the various play centers were transported in auto trucks to the bath houses for instruction in swimming and water sports.

Honors were distributed in the form of ribbon badges to the individual winners in the various championship contests.

The playground exhibition consisted of one for each playground for the season and a grand final exhibition which was held on Wednesday, August 23, at White Park. Several thousand people witnessed the mixed program of recreational and physical activities which marked the final exhibit.

The classification of both the boys and the girls was divided into senior, junior, intermediate, and midgets, and no boy or girl over seventeen years of age was permitted to participate in any of the daily work of the playground or in the exhibition.

Industrial work was introduced during the season, but limited to basketry, sewing and clay moulding, the latter for the little tots of the kindergarten age. The development physically of the youth was kept foremost in the minds of the instructors, and for this reason no particular attention was given to any industrial work which would have any tendency to discourage physical exercise and recreation.

The achievements of the season were notable in several instances; the most important was the development of the amateur spirit in competitive play and the cultivation of sport for sport's sake. Another important feature which brought excellent results was the attention paid to character building by means of the development of patriotism and by special exercises, saluting of the flag, singing of patriotic songs, etc. To sum up, the chief aim of the playground

work was the development of activities having an educational as well as a recreative value, and this object seems to have been attained.

A compilation of statistics discloses the fact that of the entire registration of both boys and girls the predominating nationality seemed to be of French origin; the second nationality in numbers was of Irish origin of American parentage; the third in numbers were Americans; other nationalities were about even for fourth place.

The registration for the department for the entire season showed a report to the effect that over ten thousand children, both boys and girls, were given instruction.

Improvements were made at the public baths by the purchase of two galvanized automobile garages. These portable houses were built as bath houses and were much more hygienic than the old wooden structures.

The following recommendations for the future should be helpful in improving the Playground and Bath Department.

1. Handball courts should be erected on all playgrounds; this is an inexpensive innovation, requiring very little lumber and carpentry work.

2. A quarter of a mile running track with the accompanying jumping pit should be layed out at White's Park.

3. White's Park should be developed as a play center and arrangements should be made whereby funds could be provided for both a man and a woman instructor at this excellent spot.

4. Funds should be provided for the development of the East Concord and Penacook playgrounds, and a man and a woman instructor should be employed at these centers. The results from these playgrounds last season fully warrant these play centers as being recognized by the Playground Department.

5. Four new bath houses should be purchased and erected at the bathing beach. This in addition to the two bath houses purchased last season would make it possible for boys and girls to visit the bathing beach daily.

6. Two arc lights should be installed at the bathing beach

and a night instructor placed in charge of the bath houses for the benefit of adults.

7. A small running track with the accompanying jumping pits should be built at both the North and South End playgrounds. Both these centers warrant the expenditure for this addition.

In conclusion I take this opportunity of congratulating publicly the corps of instructors, namely, Miss Marian Vose, Miss Myrta Lowe, Miss Ruth Fanning, Mr. Webster Bridges, Mr. Edward Coughlin, Mr. Ray Dimond, Mr. Andrew Nicol, and Miss Madeline Vose, the last named our one volunteer assistant, for the excellency of their work as teachers in the Playground Department for the season of 1922.
